**Notes to the Condensed Interim Financial Statements** 

**Unaudited – Prepared by Management** 

For the six months ended August 31, 2024 and August 31, 2023

#### 1. Nature of operations and going concern

Bonanza Mining Corporation ("Bonanza" or the "Company") was incorporated on November 24, 2016, under the laws of the Province of British Columbia, Canada. The Company's registered and records office is located at Suite 1710 – 1177 West Hastings Street, Vancouver, British Columbia, V6E 2L3. The Company's common shares trade on the TSX Venture Exchange ("TSX-V") under the symbol "BNZ.V".

The Company's main business activity is the acquisition, exploration and evaluation of mineral property interests located in British Columbia, Canada. The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Company's continuing operations and the underlying value and recoverability of the amounts shown for mineral property interests are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral property interests, obtaining the necessary permits to mine, and on future profitable production or proceeds from the disposition of the mineral property interests.

These condensed interim financial statements (the "financial statements") are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration stage company, the Company does not have traditional sources of revenue, and historically has relied on equity and related party financing to cover its operating expenses. As at August 31, 2024, the Company had a working capital deficiency of \$194,137 (February 29, 2024 – \$93,325) and shareholders' equity of \$2,173,099 (February 29, 2024 - \$2,220,724). Although the Company has been successful in raising funds to date, there can be no assurance that adequate or sufficient funding will be available in the future or available under terms acceptable to the Company. The continuance of operations is dependent on the Company continuing to obtain financing on acceptable terms. These conditions may cast significant doubt about the Company's ability to continue as a going concern.

#### 2. Material accounting policies

#### **Basis of presentation**

These financial statements have been prepared in conformity with International Accounting Standard ("IAS") 34, Interim Financial Reporting, using the same accounting policy information as detailed in the Company's annual audited financial statements for the year ended February 29, 2024, and do not include all the information required for full annual financial statements in accordance with IFRS Accounting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). It is suggested that these financial statements be read in conjunction with the annual audited financial statements.

These financial statements have been prepared on a historical cost basis, except for financial instruments measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All amounts on the financial statements are presented in Canadian dollars which is the functional currency of the Company.

#### Material accounting policies

The accounting policies, estimates and critical judgments, methods of computation and presentation applied in these financial statements are consistent with those of the most recent annual audited financial statements and are those the Company expects to adopt in its financial statements for the year ended February 28, 2025. Accordingly, these financial statements should be read in conjunction with the Company's most recent annual audited financial statements.

#### New accounting policies

Certain pronouncements have been issued by the IASB or IFRIC that are effective for the Company's accounting period beginning on March 1, 2024. With the exception of changing the Company's accounting policies from "significant" to "material", the Company has reviewed all other updates and determined that many of these updates are not applicable or consequential to the Company and have been excluded from discussion within these material accounting policies.

#### Standards issued but not yet effective

Certain pronouncements have been issued by the IASB or IFRIC that are effective for the Company's accounting period beginning on March 1, 2025. The Company has reviewed these updates and determined that none are applicable or consequential to the Company and have been excluded from discussion within these material accounting policies.

**Unaudited - Prepared by Management** 

#### For the six months ended August 31, 2024 and August 31, 2023

#### 4. Mineral property interests (continued)

#### (a) MC property

In 2019, the Company completed the acquisition of a 100% interest in certain gold-silver-lead-zinc mineral claims located in the Skeena Mining Division of Stewart, British Columbia, (the "MC property") from an optionor by making cash payments, issuing common shares, and incurring specified exploration expenditures between 2017 and 2019.

The optionor of the property retains a 2% net smelter return royalty ("NSR"), of which 1% can be purchased by the Company at any time for \$1,000,000.

On March 19, 2024, the Company executed a purchase and sale agreement to acquire additional claims adjacent to the MC property. Pursuant to the agreement the Company acquired the claims for cash consideration of \$25,000 (paid) and the issuance of 250,000 common shares of the Company (issued at a fair value of \$20,000 (\$0.08 each)). The vendor retains a 1% NSR on all future commercial production on the claims. The Company can purchase 0.5% of the NSR at any time for a cash payment of \$500,000.

#### (b) Shag property

In 2018 and as most recently amended on June 23, 2023, the Company entered into an agreement to acquire a 100% interest in certain zinc-lead mineral claims located near Golden, British Columbia, known as the Shag property from the Company's Vice-President of Exploration and Director, by making cash payments and issuing common shares of the Company as detailed below and incurring minimum aggregate exploration expenditures of \$1,000,000.

Cash payments of \$125,000:

- \$15,000 on February 21, 2018 upon signing (paid);
- \$25,000 upon obtaining a public listing in 2021 (paid);
- \$20,000 on or before July 1, 2021 (paid);
- \$20,000 on or before July 1, 2022 (paid);
- \$20,000 on or before July 1, 2023 (deferred to an undetermined date); and
- \$25,000 on or before July 1, 2024 (deferred to an undetermined date).

#### Issuing 675,000 common shares:

- 75,000 common shares on February 21, 2018 upon signing (issued);
- 100,000 common shares on or before February 21, 2019 (issued);
- 100,000 common shares on or before June 19, 2020 (issued);
- 100,000 common shares on or before July 1, 2022 (issued);
- 100,000 common shares on or before July 1, 2023 (issued);
- 100,000 common shares on or before July 1, 2024 (deferred to an undetermined date); and
- 100,000 common shares on or before July 1, 2025.

Incurring aggregate exploration expenditures of \$1,000,000:

- \$250,000 on or before December 31, 2022 (completed);
- Cumulative costs of \$500,000 on or before December 31, 2023 (completed);
- Cumulative costs of \$750,000 on or before December 31, 2024; and
- Cumulative costs of \$1,000,000 on or before December 31, 2025.

The optionor of the property retains a 3% NSR, of which 1.5% can be purchased by the Company at any time for \$1,000,000.

## For the six months ended August 31, 2024 and August 31, 2023

#### 4. Mineral property interests (continued)

#### (c) Frog property

In 2018 and as most recently amended on June 23, 2023, the Company entered into an agreement to acquire a 100% interest in certain zinc-lead-silver-copper mineral claims located in the Liard Mining District in British Columbia, known as the Frog property from the Company's Vice-President of Exploration and Director, and an arm's length party (with 50% of the cash and common share consideration payable to each individual). The Company can acquire the property by making cash payments and issuing common shares of the Company as detailed below and incurring minimum aggregate exploration expenditures of \$1,000,000.

#### Cash payments of \$125,000:

- \$40,000 upon obtaining a public listing in 2021 (paid);
- \$15,000 on or before July 1, 2021 (paid);
- \$20,000 on or before July 1, 2022 (paid);
- \$20,000 on or before July 1, 2023 (deferred to an undetermined date); and
- \$30,000 on or before July 1, 2024 (deferred to an undetermined date).

#### Issuing 675,000 common shares:

- 75,000 common shares on February 21, 2018 upon signing (issued);
- 100,000 common shares on or before April 30, 2019 (issued);
- 100,000 common shares on or before June 19, 2020 (issued);
- 100,000 common shares on or before July 1, 2022 (issued);
- 100,000 common shares on or before July 1, 2023 (issued);
- 100,000 common shares on or before July 1, 2024 (deferred to an undetermined date); and
- 100,000 common shares on or before July 1, 2025.

#### Incurring aggregate exploration expenditures of \$1,000,000:

- \$250,000 on or before December 31, 2022 (completed);
- Cumulative costs of \$500,000 on or before December 31, 2023 (completed);
- Cumulative costs of \$750,000 on or before December 31, 2024 (completed); and
- Cumulative costs of \$1,000,000 on or before December 31, 2025.

The optionors retain a 3% NSR, of which 1.5% can be purchased by the Company at any time for a cash payment of \$1,000,000.

#### **Reclamation deposits**

The Company holds reclamation deposits totalling \$36,700 (February 29, 2024 - \$36,700) which are comprised of deposits held in variable interest bearing guaranteed investment certificates (GIC) pledged to the Ministry of Finance of British Columbia in relation to the MC, Shag, and Frog properties to ensure these properties are properly restored after exploration. Management has determined that the Company has no material reclamation work related to these properties.

**Notes to the Condensed Interim Financial Statements** 

**Unaudited – Prepared by Management** 

For the six months ended August 31, 2024 and August 31, 2023

#### 5. Share capital

The authorized share capital of the Company consists of unlimited common shares without par value. All issued shares are fully paid.

#### Transactions for the issue of share capital during the six months ended August 31, 2024:

On May 8, 2024, the Company issued 250,000 common shares with a fair value of \$20,000 (\$0.08 each) for the
acquisition of the Mills property adjacent to its MC property (Note 4(a)) in accordance with the terms of the
underlying purchase agreement.

During the six months ended August 31, 2024, the Company received \$25,000 (Note 7) from a Company Director in respect of a private placement announced on May 2, 2024, which was later deferred. Specifics of a private placement are currently pending, and the proceeds received are recorded as subscription received.

#### Transactions for the issue of share capital during the six months ended August 31, 2023:

- On June 28, 2023, the Company issued 100,000 common shares with a fair value of \$5,500 (\$0.055 each) to
  the optionor of the Shag property (Note 4(b)) in accordance with the terms of the underlying option agreement.
- On June 28, 2023, the Company issued 100,000 common shares with a fair value of \$5,500 (\$0.055 each) to
  the optionors of the Frog property (Note 4(c)) in accordance with the terms of the underlying option agreement.

#### **Escrowed shares**

The Company had an Escrow Agreement in relation to certain of its issued and outstanding common shares which were subject to a scheduled release over a 36-month period which concluded in March 2024. As at August 31, 2024, there were no common shares held in escrow (February 29, 2024 – 2,583,751).

#### Stock options

The Company has an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of common shares of the Company's capital stock issuable pursuant to options granted under the Plan may not exceed 10% of the issued and outstanding common shares. Options granted under the Plan will have a maximum term of ten years. The exercise price of options granted under the Plan will not be less than the market price of the common shares (defined as the last closing market price of the Company's common shares immediately preceding the day on which the Company announces the granting of the options), or such other price as may be agreed to by the Company and accepted by the TSX-V. Vesting terms are determined by the Board of Directors at the time of grant.

A summary of the status of the Company's stock options as at August 31, 2024 and February 29, 2024, and changes during the period/year then ended is as follows:

	Period ended August 31, 2024				
	Options	Exercise price	Options	Exercise price

#### **Warrants**

As an incentive to complete private placements, the Company may issue units which include common shares and common share purchase warrants. Using the residual value method, the Company determines whether a value should be allocated to the warrants attached to the units sold in completed private placements. Finders' warrants may be issued as a private placement share issue cost and are valued using the Black-Scholes option pricing model.

A summary of the status of the Company's warrants as at August 31, 2024 and February 29, 2024, and changes during the period/year then ended is as follows:

	Period ended August 31, 2024			ar ended ary 29, 2024

Warrants outstanding, end of period/year	3,729,000	0.15	3,729,000	0.15

As at August 31, 2024, the Company has warrants outstanding and exercisable as follows:

-	3,729,000	3,729,000	0.15	October 27, 2024
	#	#	\$	
	outstanding	exercisable	price	Expiry date
	Warrants	Warrants	Exercise	

During the year ended February 29, 2024, 579,860 finders' warrants expired unexercised. Accordingly, the original fair value of \$27,400 was reversed from contributed surplus and credited to share capital.

#### Contributed surplus

Contributed surplus includes the accumulated fair value of stock options recognized as share-based payments, the fair value of finders' warrants issued on private placements, and the residual value of warrants attached to private placement units, if any. Contributed surplus is increased by the fair value of these items on vesting and/or issuance and is reduced by corresponding amounts when the options or warrants expire or are exercised or cancelled.

Notes to the Condensed Interim Financial Statements

**Unaudited – Prepared by Management** 

For the six months ended August 31, 2024 and August 31, 2023

#### 6. Loss per share

The calculation of basic and diluted loss per share for the six months ended August 31, 2024, was based on the loss attributable to common shareholders of \$92,625 (2023 – \$80,840) and a weighted average number of common shares outstanding of 50,297,607 (2023 – 50,011,767). All stock options and warrants were excluded from the diluted weighted average number of common shares calculation, as their effect would have been anti-dilutive.

#### 7. Related party payables and transactions

Key management personnel are those persons having authority and responsibility for planning, directing, and controlling the activities of the Corporation, directly or indirectly. Key management personnel include the Corporation's Executive Officers and Board of Director members. There were no loans to management personnel or Directors, or entities over which they have control or significant influence, during the six months ended August 31, 2024 and August 31, 2023.

#### Financial risk management

#### Capital management

The Company is a junior exploration company and considers items included in shareholders' equity as capital. The Company manages its capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of underlying assets. The Company's objectives when managing capital are to safeguard its ability to continue as a going concern by maintaining appropriate levels of cash to meet ongoing operating costs. The Company may from time to time, invest excess cash into highly-liquid financial instruments such as guaranteed investment certificates (GICs) or a high-interest savings account. In order to maintain or adjust its capital structure, the Company may issue new shares. The Company is not subject to any externally imposed capital requirements and does not presently utilize any quantitative measures to monitor its capital. There were no changes to the Company's approach to capital management during the six months ended August 31, 2024.

As at August 31, 2024, the Company's capital structure is comprised of shareholders' equity of \$2,173,099 (February 29, 2024 - \$2,220,724).

The Company currently has no source of revenues. In order to fund future projects and pay for administrative costs, the Company is required to raise additional funds. The Company's ability to continue as a going concern on a long-term basis and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation is primarily dependent upon its ability to sell or option its mineral properties and its ability to raise additional financing from equity markets (Note 1).

#### Financial instruments - fair value

The Company's financial instruments consist of cash, reclamation deposits, accounts payable and accrued liabilities, and accounts payable to related parties. The carrying values of these instruments approximate their fair values because of the short-term nature of these instruments.

The Company does not have any financial instruments measured at fair value on the statements of financial position. However, at initial recognition financial instruments are measured at fair value into the following fair value hierarchy levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

#### Financial instruments - classification

Financial assets:	Classification and measurement:
Cash	Amortized cost
Reclamation deposits	Amortized cost
Financial liabilities:	Classification and measurement:
Accounts payable and accrued liabilities	Amortized cost
Accounts payable to related parties	Amortized cost

#### Financial instruments - risk

The Company's financial instruments are exposed to certain financial risks, including credit risk, interest rate risk, and liquidity risk.

#### a) Credit risk

The Company is exposed to credit risk by holding cash and reclamation deposits. The exposure on cash is minimized by holding the cash in a large Canadian financial institution. The Company's exposure on its reclamation deposits is minimal as they are due from the provincial government of British Columbia.

## For the six months ended August 31, 2024 and August 31, 2023

#### 9. Financial risk management (continued)

Financial instruments - risk (continued)

#### b) Interest rate risk

The Company is exposed to interest rate risk because of fluctuating interest rates on cash balances in interest-bearing accounts and its reclamation deposits. Fluctuations in market rates do not have a significant impact on the Company's operations. For the six months ended August 31, 2024, every 1% fluctuation in interest rates up or down would have had an insignificant impact on loss for the period (2023 - insignificant impact).

## c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources.
