Notes to the Condensed Consolidated Interim Financial Statements Three Months Ended July 31, 2025 (Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company is incorporated in British Columbia, Canada and is primarily involved in the acquisition and exploration of mineral properties in the Provinces of Ontario and Newfoundland & Labrador, Canada. The address of its corporate office and principal place of business is 128-1100 Memorial Avenue, Thunder Bay, Ontario, Canada, P7B 4A3. The Company's common shares are listed for trading on the TSX Venture Exchange ("TSX-V"), under the symbol 'TGOL' and on the OTC-QB under the symbol 'TGOLF'.

At the date of these financial statements, the Company has not been able to identify a known body of commercial grade ore on any of its properties. The ability of the Company to recover the costs it has incurred to date on these properties is dependent upon the Company being able to identify a commercial ore body, to finance its exploration and development costs and to resolve any environmental, regulatory, or other constraints which may hinder the successful development of the property. Although the Company is unaware of any defects in its title to its mineral properties, no guarantee can be made that none exist.

These financial statements have been prepared on the basis of a going concern, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as going concern as described in the following paragraph. Accordingly, these financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements. These adjustments could be material.

The Company has a need for financing for working capital, and the exploration and development of its properties. The ability of the Company to continue operations is dependent upon the continued financial support of its shareholders, other investors and lenders, and the successful development of the Company's interests in the mineral properties in which it holds interests. The Company has not determined whether any of the properties contain mineral reserves that are economically recoverable. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. Since inception, the Company has incurred cumulative operating losses of \$5,092,650 and expects to incur further losses in the development of its business, and at July 31, 2025 has no source of operating revenue.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are the same as those applied in the audited annual consolidated financial statements of the Company for the year ended April 30, 2025.

The policies applied in these interim condensed financial statements are based on IFRS issued and outstanding as of September 15, 2025 the date the Audit Committee approved the statements. Any subsequent change to IFRS after this date could result in changes to the financial statements for the year ended April 30, 2026.

The condensed interim financial statements do not contain all disclosures required under IFRS and should be read in conjunction with the audited annual financial statements and the notes thereto for Thunder Gold Corp. for the year ended April 30, 2025.

Notes to the Condensed Consolidated Interim Financial Statements Three Months Ended July 31, 2025 (Unaudited - Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Basis of preparation

These financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company and its subsidiaries is the Canadian dollar ("\$"). These financial statements include the accounts of the Company and its wholly-owned subsidiary 1191557 Ontario Corp.

All transactions and balances between the Company and its subsidiaries are eliminated on consolidation. Amounts reported in the financial statements of the subsidiaries have been adjusted where necessary to ensure consistency with the accounting principles adopted by the Company.

c) Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgements in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in these financial statements:

- The determination that the Company will continue as a going concern for the next year; and
- The determination that there have been no events or changes in circumstances that indicate that the carrying amounts of exploration and evaluation assets may not be recoverable.

3. RESTRICTION ON THE USE OF CASH

The optionors of the Nichols Patent will, at any time, have the right to sell the 1% NSR not covered by the NSR Purchase Right subject to the Company having a right of first refusal to purchase such interest.

b) Other Properties

The Company also retains certain other early-stage mineral property interests and significant transactions involving them are noted here:

PEN Gold Property, Ontario

The 100% owned PEN Gold property was acquired by staking in 2019 and consists of 226 single cell mining claims covering 4,635 hectares. The property is located 275 km northeast of Thunder Bay, Ontario and less than 1 km east of Geraldton, ON. During the year ended April 30, 2024 the Company determined that no further work would be completed at PEN and as a result, impaired \$113,575 in deferred exploration and evaluation expenditures.

Far Lake Copper-Silver Property, Ontario

During the year ended April 30, 2018, the Company acquired by staking a 100% interest in the Far Lake Copper-Silver Property located approximately 80 km northwest of Thunder Bay, Ontario.

During the year ended April 30, 2021, the Company signed a letter of intent ("LOI") with Benton Resources Inc., ("Benton") for Benton to earn up to a 70% interest in the Far Lake Copper-Silver Project (the "Project"). Under the terms of the LOI, Benton would acquire from the Company in an initial option for a 60% interest in the Project (the "Initial Option"), followed initially by a second option to acquire an additional 10% interest in the Project but which was cancelled as part of the amendment more fully described below.

Notes to the Condensed Consolidated Interim Financial Statements Three Months Ended July 31, 2025 (Unaudited - Expressed in Canadian Dollars)

6. EXPLORATION AND EVALUATION ASSETS (continued)

Initial Option: It is contemplated that Benton may exercise the Initial Option by completing the following:

- Paying \$25,000 and issuing 300,000 common shares to the Company within three days of receipt of TSX-V approval for the LOI (received);
- Completing \$200,000 of exploration expenditures on the Project on or before the first anniversary of execution of the LOI (completed);
- Paying \$30,000 and issuing 400,000 common shares to the Company on or before the first anniversary of execution of the LOI (received);
- Completing an additional \$200,000 of exploration expenditures on the Project on or before the second anniversary of execution of the LOI (completed);
- Paying \$50,000 and issuing 400,000 common shares to the Company on or before the second anniversary of execution of the LOI (amended as per below);
- Completing an additional \$300,000 of exploration expenditures on the Project on or before the third anniversary of execution of the LOI (completed);
- Paying \$100,000 and issuing 500,000 common shares to the Company on or before the third anniversary of execution of the LOI (amended as per below); and
- Completing an additional \$300,000 of exploration expenditures on the Project on or before the fourth anniversary of execution of the LOI (completed).

During the year ended April 30, 2023, the Company and Benton amended the Far Lake option agreement. Pursuant to the Amending Agreement, Benton may exercise the Initial Option, earning a 60% interest in Far Lake, by paying \$25,000 and issuing 200,000 shares to Thunder Gold (originally \$150,000 and 900,000 shares required) by July 15, 2022 (received). Benton previously completed the \$1.0 million of exploration expenditures required to exercise the Initial Option. The Second Option in the original agreement has been eliminated such that Benton is limited to earning a 60% interest in Far Lake.

Having exercised the Initial Option, Benton has agreed to spend the first \$150,000 in exploration expenditures within 24 months and thereafter Benton and the Company will form a joint venture with terms consistent with usual industry practice for further development of Far Lake, with Benton having an initial 60% interest and the Company having an initial 40% interest in the joint venture. The agreement governing the joint venture will contain provisions which provide for dilution for non-participation in programs including a provision for participant's interest to be converted to a 2.0% NSR if its interest is diluted to less than 10%, half of which can be purchased by the non-diluted party for \$1.0 million at any time.

Pickle Lake Gold Project Royalty Interests, Ontario

The Pickle Lake gold properties consist of four claims packages in the Pickle Lake area, Ontario:

- Dorothy-Dobie Lake Property
- Kasagiminnis Lake Property
- South Limb Property
- Pickle Lake West Property

During fiscal 2019, the Company disposed of its previous ownership interests in these properties to Ardiden Limited ("Ardiden"), an Australian public company, for consideration which included certain royalty interests.

The Company maintains the right to purchase the existing 1% NSR held by Murchison Minerals Ltd. on certain claims within the Dorothy-Dobie and Kasagiminnis properties, pursuant to which 0.5% can be purchased for \$1,000,000 and the second 0.5% can be purchased for \$1,500,000. The Company holds a 1% NSR on certain other claims located within the Dorothy-Dobie claim group. The Company also retains a 2% NSR on the 100%-owned West Pickle and South Limb properties, of which 1% can be purchased by Ardiden for \$1,000,000. Ardiden will have a Right of First Refusal on the remaining 1% NSR.
