Notice of No Auditor Review of Consolidated Interim Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the consolidated interim financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor. The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by management and approved by the Audit Committee and Board of Directors of the Company. The Company's independent auditor has not performed a review of these financial statements in accordance with the standards established by Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

**NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2025 AND 2024**
(Unaudited - Expressed in Canadian dollars)

1. Nature of Operations and Going Concern

Cybeats Technologies Corp. ("Cybeats" or "the Company"), formerly Pima Zinc. Corp. was incorporated under the laws of the State of Idaho in 1916. After several decades of dormancy, the Company reorganized in 1997 as an exploration stage company focused on evaluating, acquiring and exploring mineral prospects with potential for economic deposits. In 2011, the Company was re-domiciled to the Cayman Islands. The Company filed a continuation application to continue out of the Cayman Islands under the provisions of the of the Companies Law (2020 Revision) and into the Province of British Columbia under the provisions of the Business Corporations Act (British Columbia) (the "Continuance"). The Continuance became effective on June 25, 2021. Pima Corp. changed its name to Cybeats Technologies Corp. on November 9, 2022. On November 28, 2023, the Company registered Cybeats Technologies, Inc., a branch of its entity, in the State of Delaware to support its operational expansion and regulatory alignment within the United States. The principal business address of the Company is 65 International Blvd, Suite 103, Etobicoke, Ontario M9W 6L9.

On November 11, 2022, Cybeats completed the acquisition of Cybeats Technologies Inc., which was incorporated in Ontario on September 20, 2016 as 2537478 Ontario Ltd., through the amalgamation of Cybeats Technologies Inc., and 2635212 Ontario Inc. as described in Note 15. As described in Note 16, Cybeats Technologies Inc. was identified as the acquirer for accounting purposes. As such, the Company is considered to be a continuation of the business and operations of Cybeats Technologies Inc.

Cybeats mission is to offer software product developers unparalleled cybersecurity from design phase throughout the commercial life cycle following a secure-by-design approach for software.

The Company's ability to continue as a going concern is dependent upon the need to both manage expenditures and to raise additional funds. The Company is experiencing, and has experienced, negative operating cash flows and has working capital deficit of \$5,911,774 as at June 30, 2025 (December 31, 2024 working capital deficit - \$3,963,689). The Company will continue to search for new or alternate sources of financing in order to continue development of its products. These material uncertainties cast significant doubt on the Company's ability to continue as a going concern.

There can be no assurance that the Company will be able to continue to raise funds when required in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the statement of financial position.

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

2. Basis of Presentation

Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as applicable to interim financial statements, including International Accounting Standard 34 ("IAS-34") – Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). The consolidated interim financial statements of the Company for the six months ended June 30, 2025 were approved and authorized for issue by the Board of Directors on August 29, 2025.

Basis of Measurement

These financial statements have been prepared on the historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Functional and Presentation Currency

The financial statements are presented in Canadian dollars, which is also the Company's functional currency.

3. Material Accounting Policy Information

The following accounting policies have been applied consistently to all periods presented in these financial statements:

a) Impairment

At each financial position reporting date, the carrying amounts of the Company's long-lived assets are reviewed to determine whether there is any indication that those assets are impaired at a cash generating unit level. If any such indication exists, the recoverable amount of the cash generating unit is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use, which is the present value of future cash flows expected to be derived. If the recoverable amount is estimated to be less than its carrying amount, the carrying amount is reduced to its recoverable amount and the impairment loss is recognized in the profit or loss for the period.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

b) Research and development costs

Costs associated with the development of the Company's products are capitalized where the following criteria are met:

- the technical feasibility of completing the intangible asset so it will be available for use or sale;
- its intention to complete and its ability to use or sell the assets;

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

- how the asset will generate future economic benefits;
- the availability of resources to complete the asset; and
- the ability to measure reliably of the expenditure during development.

The Company did not incur other research and development costs in the period.

c) Foreign currency translation

The Company's functional and presentation currency is the Canadian dollar. Foreign currency transactions are initially recorded in the functional currency at the transaction date exchange rate. At closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the closing date exchange rate, and non-monetary assets and liabilities at the historical rates. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in profit or loss.

d) Financial Instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument.

Under IFRS 9, financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 contains the primary measurement categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVTOCI") and fair value through profit and loss ("FVTPL").

Below is a summary showing the classification and measurement basis of financial instruments;

Asset or Liability	Category	Measurement
Cash and Cash equivalents	FVTPL	Fair Value
Accounts Receivable	FVTPL	Fair Value
Accounts Payable and accrued liabilities	Other liabilities	Amortized Cost
Lease Payable	Other liabilities	Amortized Cost
Due from related parties	Other liabilities	Amortized Cost
Due to related parties	Other liabilities	Amortized Cost
Short-term debt	Other liabilities	Amortized Cost
Convertible debenture	Other liabilities	Amortized Cost

Financial Assets

Financial assets are classified as either financial assets at FVTPL, amortized cost, or FVTOCI. The Company determines the classification of its financial assets at initial recognition.

i. Financial assets recorded at FVTPL

Financial assets are classified as FVTPL if they do not meet the criteria of amortized cost or FVTOCI. Gains or losses on these items are recognized in profit or loss. The Company's cash and cash equivalents are classified as financial assets measured at FVTPL.

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

ii. Amortized Cost

Financial assets are classified as measured at amortized cost if both of the following criteria are met and the financial assets are not designated as at FVTPL: 1) the object of the Company's business model for these financial assets is to collect their contractual cash flows; and 2) the asset's contractual cash flows represent "solely payments of principal and interest".

Financial Liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or at amortized cost. The Company determines the classification of its financial liabilities at initial recognition.

i. Amortized Cost

Financial liabilities are classified as measured at amortized cost unless they fall into one of the following categories: financial liabilities at FVTPL, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market interest rate, or contingent consideration recognized by an acquirer in a business combination.

The Company's accounts payable, accrued liabilities, and lease payable do not fall into any of the exemptions and are therefore classified as measured at amortized cost.

ii. Financial Liabilities recorded at FVTPL

Financial liabilities are classified as FVTPL if they fall into one of the five exemptions detailed above.

Transaction Costs

Transaction costs associated with financial instruments, carried at FVTPL, are expensed as incurred, while transaction costs associated with all other financial instruments are included in the initial carrying amount of the asset or the liability.

Subsequent Measurement

Instruments classified as FVTPL are measured at fair value with unrealized gains and losses recognized in profit or loss. Instruments classified as amortized cost are measured at amortized cost using the effective interest rate method. Instruments classified as FVTOCI are measured at fair value with unrealized gains and losses recognized in other comprehensive income.

Derecognition

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled, or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

Expected credit loss impairment model

IFRS 9 introduced a single expected credit loss impairment model, which is based on changes in credit quality since initial application. The adoption of the expected credit loss impairment model had no impact on the Company's financial statements.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. The Company considers a financial asset to be in default when

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

the borrower is unlikely to pay its credit obligations to the Company in full or when the financial asset is more than 90 days past due.

The carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Financial instruments at fair value through profit and loss

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – valuation techniques using inputs for the asset or liability that are not based on observable market date (unobservable inputs)

Cash is measured at fair value using Level 1 inputs.

As at June 30, 2025, the fair value of the financial liabilities approximates the carrying value, due to the short-term nature of the instruments.

e) Revenue Recognition

Revenue from contracts with customers are based on *IFRS 15: Revenue from Contracts with Customers* and revenue is recognized when it has satisfied its performance obligation to the customers over time or at a single point in time. The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognizes revenue over time. Revenue is recognized at a point in time when customers obtain control of the product. Interest income is recognized on a time-proportion basis using the effective interest method.

f) Property, Plant, and Equipment

Property, plant and equipment is stated at historical cost less accumulated depreciation and accumulated impairment losses.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the statement of loss and comprehensive loss during the financial period in which they are incurred.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in profit or loss in the period.

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

Amortization is calculated on a declining balance basis at the following annual rates:

Furniture and Fixtures	20%
Computer equipment	55%

g) Income Taxes

Income tax on profit or loss for the year comprises of current and deferred tax. Current tax is the expected tax paid or payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax paid or payable in respect of previous years.

Deferred tax is recorded using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized. The effect on deferred income tax assets and liabilities of a change in income tax rates is recognized in the period that includes the date of the enactment or substantive enactment of the change. Deferred tax assets and liabilities are presented separately except where there is a right of set off within fiscal jurisdictions.

h) Basic and Diluted Income (Loss) per Share

Basic income (loss) per share has been calculated using the weighted average number of common shares outstanding during the year. Diluted income (loss) per share has been calculated using the weighted average number of common shares that would have been outstanding during the respective period had all of the stock options and warrants outstanding at year end having a dilutive effect been converted into shares at the beginning of the year and the proceeds used to repurchase the Company's common shares at the average market price for the year.

i) Comprehensive Income (Loss)

Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss) and represents the change in shareholders' equity which results from transactions and events from sources other than the Company's shareholders. Income or loss from an investment in associate is included in other comprehensive income (loss). Accumulated other comprehensive income (net of income taxes) is included on the statements of financial position as a component of common shareholders' equity.

j) Cash and Cash Equivalents

Cash consists of cash on hand, deposits in banks and funds held in short term deposits.

k) Leases

All leases are accounted for by recognizing a right-of-use asset and a lease liability except for leases of low value assets and leases with a duration of twelve months or less. Lease liabilities are measured at the present value of the contractual payments due to the lessor over the term

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

of the lease with the discount rate determined by using the incremental borrowing rate on commencement of the lease. Right-of-use assets are amortized on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset if this is judged to be shorter than the remaining lease term.

I) Valuation of Units on Private Placement

The valuation of units issued under private placements is determined based on the issue price of the units. Each unit typically comprises a common share and an associated common share purchase warrant. The associated common share purchase warrants issued as part of the private placements are valued using the Black-Scholes option pricing model. This model takes into account several factors, including the market price of the underlying common shares, the exercise price of the warrants, the expected volatility of the share price, the risk-free interest rate, and the expected life of the warrants. The fair value of the warrants is calculated at the time of issuance and is subsequently used in the financial statements to reflect the value of the equity component of the units.

m) Basis of Consolidation

These consolidated annual financial statements as at and for the period ended June 30, 2025 include the accounts of the Company and its wholly-owned and controlled operating subsidiary Cybeats Technologies Inc. and its inactive subsidiaries 1139432 B.C. Ltd., and 1139432 Nevada Ltd.

The financial statements of its subsidiaries are included in the audited consolidated financial statements from the date that control commences until the date that control ceases. All significant inter-Company transactions and balances have been eliminated on consolidation. All references to the Company should be treated as references to the Company and its subsidiaries.

n) Share-Based Payments

Share-based payment transactions

Employees (including directors and senior executives) and consultants of the Company receive a portion of their remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

In situations where equity instruments are issued and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment.

Equity-settled transactions

The costs of equity-settled transactions with employees are measured by reference to the fair value of the equity instrument at the date on which they are granted.

The costs of equity-settled transactions are recognized, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the "vesting date"). The cumulative expense is recognized for equity-settled transactions at each reporting date until the vesting date reflects the Company's best estimate of the number of equity

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

instruments that will ultimately vest. The profit or loss charge or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and the corresponding amount is represented in share-based payment reserve. No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, the minimum expense recognized is the expense as if the terms had not been modified. An additional expense is recognized for any modification which increases the total fair value of the share-based payment arrangement or is otherwise beneficial to the employee as measured at the date of modification.

o) Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence, related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions that are in the normal course of business and have commercial substance are measured at the exchange amount.

4. Significant Accounting Judgements and Estimates

The preparation of these financial statements in conformity with IFRS requires that management make estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the annual financial statements. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(i) Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

Useful life of intangible assets - Management has exercised their judgment in determining the useful life of its patents, patent applications and research and development costs. The estimate is based on the expected period of benefit of the patent and the expected life of the product in the marketplace.

(ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are, but are not limited to, the following:

CYBEATS TECHNOLOGIES CORP.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

Determination of functional currency - In accordance with IAS 21, The Effects of Changes in Foreign Exchange Rates, management has determined that the functional currency of the Company is the Canadian dollar.

Evaluation of going concern - The preparation of the financial statements requires management to make judgments regarding the going concern of the Company. Management has determined the Company is a going concern.

Income taxes - Management has exercised their judgment in determining the provision for future income taxes. The judgment is based on the Company's current understanding of the tax law as it relates to the transactions and activities entered into by the Company.

10. Reconciliation of Income Taxes

Income tax expense differs from the amount that would be computed by applying the federal and provincial income tax rates of 26.50% (2023 – 26.50%) to income before income taxes. The reasons for the differences and the related tax effects are as follows:

	December 31, 2024	December 31, 2023
Tax at the applicable tax rate of 26.5%	(2,534,298)	(2,739,467)
Permanent differences	554,517	540,359
Temporary differences	1,979,782	2,199,108
Income tax expense	-	-

Significant components of deductible and taxable temporary differences, unused tax losses and unused tax credits that have not been included on the statement of financial position are as follows:

	December 31, 2024	December 31, 2023
Share issuance costs	273,756	103,242
CCA in excess of NBV	23,188	28,992
	\$ 296,944	\$ 132,234

Deferred taxes are provided as a result of temporary differences that arise due to the differences between the income tax values and the carrying amount of assets and liabilities. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits there from. Non-capital loss carry-forwards expire as rated in the table below. Share issuance costs will be fully amortized in 2026. The remaining deductible temporary differences may be carried forward indefinitely.

12. Convertible Debenture

On January 25, 2024, the Company completed a financing of \$2,025,000 through the issuance of secured convertible debentures (the “Debentures”). The Debentures will mature on the second anniversary of issuance, bear interest at a rate of twelve percent (12%) per annum. The Debentures are convertible at the option of the holder into common shares in the capital of the Company at a price of \$0.30 per common share (the “Conversion Option”). In connection with the Debentures, holders also received one common share purchase warrant (each, a “Debenture Warrant”) for each \$0.40 principal amount of the Debentures, resulting in an aggregate of 6,749,325 Debenture Warrants issued. Each Debenture Warrant entitles the holder to acquire one common share of the Company at an exercise price of \$0.40 per common share for a period of two years from the date of issuance.

Each whole Warrant entitles the holder to acquire one common share of the Company at an exercise price of \$0.40 per common share for a period of two years from the date of issuance. In connection with the financing, finder's fees were paid totalling \$3,150.

The Company used the residual value method to allocate the principal amount of the convertible debentures between the liability and equity components. The Company valued the debt component of the convertible debentures by calculating the present value of the principal and interest payments, discounted at a rate of 18%, being management's best estimate of the rate that a non-convertible debenture with similar terms would bear. The equity component of the convertible debentures comprises the value of the Conversion Option and Debenture Warrants, being the difference between the face value of the Debentures and the liability component calculated below. Based on this calculation, the liability component was \$1,834,774 and the residual equity component was \$190,226 which was allocated between the warrants and the conversion premium based on their relative fair values.

The fair value of Warrants and Finder Warrants granted was estimated at the date of issuance using a Black Scholes Option Pricing Model with the following assumptions:

14. Due To and From Related Parties

Amounts payable and amounts receivable from related parties, are non-interest bearing, unsecured and have no specific terms of repayment.

15. Management of Capital

The Company manages its capital structure and adjusts it based on the funds available to the Company, in order to support the development of its business. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital to include its shareholders' equity. In order to carry out the planned development of its business and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended June 30, 2025. The Company is not subject to externally imposed capital requirements.

The Company considers its capital to be shareholders' equity, which is comprised of capital stock, reserves, and accumulated deficit, which as at June 30, 2025 totaled a deficiency \$7,718,729 (December 31, 2024 – \$6,179,034).

The Company's objective when managing capital is to obtain adequate levels of funding to support the development of its business and to obtain corporate and administrative functions necessary to support organizational functioning. The Company raises capital, as necessary, to meet its needs and take advantage of perceived opportunities and, therefore, does not have a numeric target for its capital structure. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurance that the Company will be able to continue raising equity capital in this manner.

16. Financial Risk Factors

The Company manages its exposure to a number of different financial risks arising from its operations as well as its use of financial instruments including market risks, credit risk and liquidity risk through its risk management strategy.

The objective of the strategy is to support the delivery of the Company's financial targets while protecting its future financial security and flexibility.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

Financial risks are primarily managed and monitored through operating and financing activities and, if required. The financial risks are evaluated regularly with due consideration to changes in the key economic indicators and up-to-date market information.

The Company's financial instruments primarily consist of cash. The fair value of the Company's accounts payable and accrued liabilities approximates their carrying value, due to their short-term maturities or ability of prompt liquidation.

The Company's cash is recorded at fair value, under the fair value hierarchy, based on level one quoted prices in active markets for identical assets or liabilities. The Company is exposed in varying degrees to a variety of financial instrument related risks.

Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of the business. These market risks are evaluated by monitoring changes in key economic indicators and market information on an on-going basis.

(i) Interest Rate Risk

The Company has cash balances and is not at a significant risk to fluctuating interest rates. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The Company monitors the credit worthiness of the debtor and is satisfied with the debtor's ability to repay the amount owing.

(ii) Foreign currency risk

As at June 30, 2025, the Company's expenditures are predominantly in Canadian dollars, and any future equity raised is expected to be predominantly in Canadian dollars and therefore is not at a significant risk to fluctuating exchange risks.

Liquidity Risk

Liquidity risk encompasses the risk that a company cannot meet its financial obligations in full. The Company's main source of liquidity is derived from its common stock issuances. These funds are primarily used to finance working capital, operating expenses, capital expenditures, and acquisitions. The Company manages its liquidity risk by regularly monitoring its cash flows from operating activities and holding adequate amounts of cash and cash equivalents. As at June 30, 2025 the Company held cash and cash equivalents in banks of \$146,108 (December 31, 2024 - \$35,099) to settle current liabilities of \$6,554,521 (December 31, 2024 - \$5,978,317).

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash. The Company has reduced its credit risk by investing its cash in trust with Canadian chartered banks.

17. Subsequent Events

Conversion Price Amendment

On August 1, 2025, the Company announced a conversion price amendment to the \$1.83 million principal amount of convertible debentures that were issued on January 25, 2024 (the "Convertible Debentures"). The Company has received written approval for the amendment from holders of 66 2/3% of the principal amount owing under the Convertible Debentures as required by the certificates governing the Convertible Debentures. As the Company seeks to enter a period of commercial expansion, it wishes to reduce the principal amount owing under the Convertible Debentures which are due to be paid on January 25, 2026.

The conversion price for the convertible debenture has been repriced to \$0.10 per common share which was previously at \$0.30 per common share. As part of the repricing amendment, each holder of Convertible Debentures shall have thirty (30) days to convert the Convertible Debentures following written notice to the holders if during the term the common shares of the Company close above \$0.125 per share on each trading day for a period of ten (10) consecutive trading days (the "Acceleration Period"). If the Holder does not elect to convert during the Acceleration Period, then the conversion price shall be reverted back to \$0.30.

Debt Settlement and Debenture Conversion

On August 5, 2025, the Company announced the settlement of \$1,500,000 of indebtedness and the conversion of \$1,405,000 in principal amount of outstanding convertible debentures. Pursuant to debt settlement agreements entered into with certain creditors and service providers, the Company has settled an aggregate \$1,500,000 of indebtedness through the issuance of 15,000,000 common shares in the capital of the Company at a price of \$0.10 per Share. All Shares issued pursuant to the Debt Settlement are subject to a four (4) month hold period in accordance with applicable securities laws.

The Company also announces that an aggregate principal amount of \$1,405,000 in outstanding convertible debentures has been converted into 14,050,000 Shares at a conversion price of \$0.10 per Share, in accordance with the terms of the convertible debentures issued on January 25, 2024, as amended.

Private Placement - Life Offering

On August 7, 2025, the Company announced that it has closed the previously announced "best efforts" private placement of units of the Company. The Offering was completed by Beacon Securities Limited, acting as the sole and exclusive agent to the Company. Pursuant to the Offering, the Company issued 32,370,000 Units at a price of \$0.10 per Unit for aggregate proceeds of \$3,237,000. The Units were issued pursuant to Part 5A of National Instrument 45-106 – *Prospectus Exemptions* ("NI-45-106") and in reliance on the amendments to Part 5A of NI 45-106 set forth in Coordinated Blanket Order 45-935 – *Exemptions from Certain Conditions of the Listed Issuer Financing Exemption*. Each Unit consists of one common share in the capital of the Company and one-half of one common share purchase warrant of the Company. Each Warrant entitles the holder thereof to acquire one common share in the capital of the Company at a price of \$0.15 per Warrant Share for a period of 24 months from the closing of the Offering.
