WIRELESS

- Wireless is the largest Canadian wireless communications service provider, serving approximately 9.0 million retail voice and data subscribers as at December 31, 2010, representing approximately 36% of Canadian wireless subscribers.
- Wireless operates on the global standards Global System for Mobile communications/High-Speed Packet Access (“GSM/HSPA”) wireless network technology platforms. Its underlying GSM/General Packet Radio Service/Enhanced Data for GSM Evolution (“GSM/GPRS/EDGE”) network provides coverage to approximately 95% of Canada’s population. Overlaying the GSM network is a next generation wireless data technology called Universal Mobile Telephone System/Evolved HSPA (“UMTS/HSPA+”) which covers approximately 88% of the population with wireless data services at speeds of up to 21 Mbps. Wireless customers are able to access their services in most parts of the world through roaming agreements with various other GSM and HSPA wireless network operators. Rogers has one of the largest roaming footprints and number of available destinations for its customers’ wireless usage in the world. With each roaming agreement, Rogers has established a direct relationship with the operator rather than implementing third party services.
- Wireless offers wireless voice, data and messaging services including related handsets devices and accessories, across Canada. Wireless’ services are generally all available under either postpaid or prepaid payment options. Wireless’ network provides customers with advanced high-speed wireless data services, including mobile access to the Internet, wireless e-mail, digital picture and video transmission, mobile video, music and application downloading, video calling and two-way short messaging service (“SMS” or “text messaging”).
- Wireless’ nationwide distribution network includes: an independent dealer network; Rogers Wireless, Fido and chatr stores, which are managed by Rogers Retail; major retail chains; and convenience stores. Wireless markets its products and services under the Rogers Wireless, Fido and chatr brands through an extensive nationwide distribution network across Canada of approximately 2,900 dealer and retail third party locations and approximately 400 Rogers Retail locations (which is a segment of Cable). The distribution network sells its service plans and devices, and there are thousands of additional locations selling its prepaid services. Wireless also offers many of its products and services through telemarketing and on the rogers.com, fido.ca, and chatrwireless.com e-business websites. The information contained in or connected to our websites is not a part of and not incorporated into this AIF.

CABLE

- Cable is one of Canada’s largest providers of cable television, high-speed Internet access and cable telephony services, and is also a facilities-based telecommunications alternative to the traditional telephone companies.
- Cable has highly-clustered and technologically advanced broadband cable networks in the provinces of Ontario, New Brunswick and Newfoundland and Labrador. Its Ontario cable systems, which encompass approximately 90% of its 2.3 million television subscribers, are concentrated in and around three principal clusters: (i) the Greater Toronto Area, Canada’s largest metropolitan centre; (ii) Ottawa, the capital city of Canada; and (iii) the Guelph to London corridor in southwestern Ontario. The New Brunswick and Newfoundland and Labrador cable systems in Atlantic Canada comprise the balance of its cable systems and subscribers.
- The Cable Operations segment had 2.3 million television subscribers at December 31, 2010, representing approximately 29% of all television subscribers in Canada. At December 31, 2010, it provided digital cable services to approximately 1.7 million of its television subscribers and high-speed Internet service to approximately 1.7 million residential subscribers. It provides local telephone and long-distance services under the Rogers Home Phone brand to residential customers with both voice-over-cable and circuit-switched technologies with over a million subscriber lines at December 31, 2010.
- The Rogers Business Solutions (“RBS”) segment of Cable offers local and long-distance telephone, enhanced voice and data networking services, and IP access to medium and large Canadian businesses and governments, as well as making some of these offerings available on a wholesale basis to other telecommunications providers and within Rogers. At December 31, 2010, there were 146,000 local line equivalents and 42,000 broadband data circuits in service. Cable and RBS are increasingly focusing its business segment sales efforts within its traditional cable television footprint, where it is able to provide and serve customers with voice and data telephony services provided over its own infrastructure.
- The Rogers Retail segment operates a retail distribution chain with approximately 400 stores at December 31, 2010, many of which provide customers with the ability to purchase all of Rogers’ primary services (cable television, Internet, cable telephony and wireless),

pay their Rogers bills, and pick up or return Rogers digital and Internet equipment. The segment also offers digital video disc (“DVD”) and video game sales and rentals.

MEDIA

- Media’s broadcasting group (“Broadcasting”) comprises 55 radio stations across Canada; the multicultural OMNI broadcast television stations; the five-station Citytv broadcast television network; specialty sports television services including Rogers Sportsnet, Sportnet ONE and Setanta Sports Canada; other specialty services including Outdoor Life Network, The Biography Channel Canada and G4 Canada; and The Shopping Channel, Canada’s only nationally televised shopping service. Media also holds 50% ownership in Dome Productions, a mobile sports and events production and distribution joint venture that is a leader in high-definition television (“HDTV”) production in Canada.
- Media’s publishing group (“Publishing”) publishes consumer magazines and trade and professional publications and directories in Canada.

- On February 18, 2011, RCI announced that it had issued notices to redeem on March 21, 2011 all of the US\$350 million principal amount of 7.875% Senior Notes due 2012 and all of the US\$470 million principal amount of 7.25% Senior Notes due 2012, in each case at the applicable redemption price plus accrued interest to the date of redemption. In each case, the respective redemption price will include a make whole premium based on the present value of the remaining scheduled payments as prescribed in the applicable indenture.
- On February 16, 2011, we announced that the Toronto Stock Exchange (“TSX”) had accepted a notice filed by RCI of our intention to renew our NCIB for a further one-year period commencing February 22, 2011 and ending February 21, 2012, and during such one-year period we may purchase on the TSX up to the lesser of 39.8 million Class B Non-Voting shares and that number of Class B Non-Voting shares that can be purchased under the NCIB for an aggregate purchase price of \$1.5 billion.
- On February 16, 2011, we announced an increase in the annual dividend from \$1.28 to \$1.42 per Class A Voting and Class B Non-Voting share. The new annual dividend of \$1.42 per share will be paid in quarterly amounts of \$0.355 per each outstanding Class A Voting and Class B Non-Voting share.
- On January 4, 2011, we acquired Atria Networks LP (“Atria”) for cash consideration of \$425 million. Atria, based in Kitchener, Ontario, owns and operates one of the largest fibre-optic networks in Ontario, delivering on-net data networking services to business customers in approximately 3,700 buildings in and adjacent to Cable’s service area.

No commissions, service charges or brokerage fees will be payable by Plan participants in connection with additional shares acquired under the DRIP.

The amalgamated company did not transfer its interest or obligations in or under: equity interests in any subsidiaries; long-term debt; derivative instruments; real estate assets; and intercompany notes. As a result of this reorganization, effective July 1, 2010, RCP holds substantially all of the Company’s shared services and Cable and Wireless operations. Reporting will continue to reflect the Cable and Wireless services as separate operating segments. In addition, RCCI ceased to be a separate legal entity on July 1, 2010 as a result of the amalgamation and effective July 1, 2010 RCCI is no longer a guarantor or obligor, as applicable, for the Company’s bank credit facility, public debt and derivative instruments. RCI continues to be the obligor in respect of each of these, while RCP remains either a co-obligor or guarantor, as applicable, for the public debt and a guarantor for the bank credit facility and derivative instruments. - In February 2009, we renewed our prior NCIB for repurchases of our Class B Non-Voting shares through the facilities of the TSX for a further one-year period. The initial maximum number of Class B Non-Voting shares which we could purchase pursuant to the NCIB was the lesser of 15 million, representing approximately 2.9% of the number of Class B Non-Voting shares outstanding at December 31, 2008, and that number of Class B Non-Voting shares that could be purchased under the NCIB for an aggregate purchase price of \$300 million. In May 2009 we announced an amendment to increase our Class B Non-Voting share buyback program authorization from \$300 million to the lesser of \$1.5 billion or 48 million Class B Non-Voting shares during the twelve month period commencing February 20, 2009 and ending February 19, 2010 under which we purchased for cancellation 43.8 million outstanding Class B Non-Voting shares during 2009 for \$1.3 billion.

- Cable launched DOCSIS 3.0 high-speed Internet service, including two new 25 Mbps and 50 Mbps tiers, the fastest residential Internet access service available in our Cable territory. This information under the heading “Dividends on RCI Equity Securities” contained on page 35 to 36 of our Management’s Discussion and Analysis for the year ended December 31, 2010 is incorporated herein by reference.

ITEM 7 — DESCRIPTION OF CAPITAL STRUCTURE

Item -7.1 — General Description of Capital Structure

The information required under the heading General Description of Capital Structure is contained in the 2010 Annual Audited Financial Statements, Note 18 and is incorporated herein by reference.

Each Class A Voting share of RCI carries the right to fifty votes on a poll and may be voted at the meetings of shareholders of RCI. Holders of Class B Non-Voting shares and any series of preferred shares of the Company are entitled to receive notice of and to attend meetings of shareholders of RCI but, except as required by law, are not entitled to vote at such meetings. **If an offer is made to purchase outstanding Class A Voting shares, there is no requirement under applicable law or the Company’s constating documents that an offer be made for the outstanding Class B Non-Voting shares and there is no other protection available to holders of Class B Non-Voting shares under the Company’s constating documents. If an offer is made to purchase both Class A Voting shares and Class B Non-Voting shares, the offer for the Class A Voting shares may be made on different terms than the offer made to the holders of Class B Non-Voting shares.**

Item 7.2 — Constraints

Restrictions on the Transfer, Voting and Issue of Shares

We have ownership interests in several Canadian entities licenced or authorized to operate under applicable communications laws (the “**Laws**”) including the:

- *Broadcasting Act* (Canada)
- *Telecommunications Act* (Canada)
- *Radiocommunication Act* (Canada)

The Laws have foreign ownership limits (the “**Limits**”) for various classes of licensed or authorized entities. You can obtain a copy of the Limits from our Secretary.

The Laws also impose a number of restrictions on changes in effective control of licencees or authorized entities, and the transfer of licences held by them. Our Articles of Amalgamation therefore impose restrictions on the issue and transfer of our shares and the exercise of voting rights to ensure that we and any Canadian corporation in which we have any interest are:

- qualified to hold or obtain any cable television, broadcasting or telecommunications licence or authorized to operate a similar entity under the Laws; and
- not in breach of the Laws or any licences issued to us or to any of our Canadian subsidiaries, associates or affiliates under the Laws.

If our Board considers that our or our subsidiaries’ ability to hold and obtain licences, or to remain in compliance with the Laws, may be in jeopardy, the Board may invoke the restrictions in our Articles of Amalgamation on transfer, voting and issue of our shares.

In its March 2010 Budget, the federal government announced its intention to remove the existing restrictions on foreign ownership of Canadian satellites (subsequently passed into law in the fall of 2010). The government also announced that it would review the foreign ownership restrictions currently applied to telecommunications companies. In June 2010, Industry Canada released its consultation paper on this matter asking for comments by July 2010 on three options:

1. Increasing the limit for direct foreign investment in broadcasting and telecommunications common carriers to 49 percent;
2. Lifting restrictions on telecommunications common carriers with a 10 percent market share or less, by revenue; or
3. Removing telecommunications restrictions completely.

Rogers filed its comments in July 2010 submitting that of the three options only option 1 was acceptable because options 2 and 3 fail to recognize the converged market for communications services in Canada. The attempt made in Options 2 and 3 to limit the reforms to “pure telecommunications” networks is out of step with the reality of broadband markets and inconsistent with the government’s attempt to implement a digital economy strategy for Canada.

In November 2010, Industry Canada announced that the government’s deliberations on potential foreign ownership changes would be coordinated with the spring 2011 consultation on the appropriate structure of the 700 MHz spectrum auction.

Item 7.3 — Ratings

In August and September 2010, Moody’s Investors Service (“Moody’s”) affirmed the rating for RCI’s senior unsecured debt to be Baa2, with a Stable outlook and assigned its Baa2 rating to each of the 2040 Notes and the 2020 Notes.

In August and September 2010, Standard & Poor’s Ratings Services (“Standard & Poor’s”) affirmed the corporate credit rating for RCI to be BBB and the rating for RCI’s senior unsecured debt to be BBB, each with a Stable outlook and assigned its BBB rating to each of the 2040 Notes and the 2020 Notes.

In August and September 2010, Fitch Ratings (“Fitch”) affirmed the issuer default rating for RCI to be BBB and the rating for RCI’s senior unsecured debt to be BBB, each with a Stable outlook and assigned its BBB rating to each of the 2040 Notes and the 2020 Notes.

Credit ratings are intended to provide investors with an independent measure of the credit quality of an issue of securities and are intended to be indicators of the likelihood of payment and of the capacity and willingness of the issuer to meet its financial commitment on obligations in accordance with the terms of those securities. However, the credit ratings accorded to the rated securities may not reflect the potential impact of all risks on the value of those securities, including risks related to structure, market or other factors. Ratings for long-term debt securities range along a scale from AAA, in the case of Standard & Poor’s and Fitch, or Aaa in the case of Moody’s, which represent the highest quality of securities rated, to D in the case of Standard & Poor’s and Fitch, and C in the case of Moody’s, which represent the lowest quality of securities rated. Certain of these major rating categories may be modified to show relative standing within that category by the addition of a plus (+) or minus (-) sign, in the case of Standard & Poor’s and Fitch, or numerical modifiers 1, 2 and 3, in the case of Moody’s, with modifier 2 indicating a mid-range ranking.

According to the Moody’s rating system, debt securities rated Baa are subject to moderate credit risk. They are considered medium grade obligations and as such may possess certain speculative characteristics. According to the S&P rating system, debt securities rated BBB exhibit adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments on the securities. Fitch describes debt instruments rated BBB as having good credit quality. According to Fitch, BBB ratings indicate that there are currently expectations of low credit risk and that the capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity.

The credit ratings accorded by the rating agencies are not recommendations to purchase, hold or sell the rated securities since such ratings do not comment as to their market price or suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time, or that any rating will not be revised or withdrawn entirely by a rating agency in the future if in its judgment circumstances so warrant. The ratings on RCI’s senior debt of BBB from Standard & Poor’s and Fitch and of Baa2 from Moody’s represent investment grade ratings.

Composition of the Board

The Board currently has 18 members.

Independent Directors

The Board is responsible for determining whether a director is "independent" within the meaning of NI 58-101.

Certain directors may be principals of, partners in or hold other positions with entities that provide legal, financial or other services to the Company. The Board has adopted discretionary Director Material Relationship Standards for the purpose of assisting the Board in making determinations whether or not a direct or indirect business, commercial, banking, consulting, professional or charitable relationship that a director may have with the Company or its subsidiaries is a material relationship that could, in the view of the Board, reasonably interfere with the exercise of the director's independent judgment. These standards can be reviewed in the Corporate Governance section of our Company's website at rogers.com.

Based on the information provided by each director and the recommendations of the Corporate Governance Committee, the Board has determined that the following directors are independent in accordance with the requirements of NI 58-101 and the standards referred to above. In making this determination, the Board considered all of the relationships that each director has with the Company (taking the discretionary standards referred to above and other factors the Board considered relevant into account) and concluded that none of the relationships considered would likely impair the director's independent judgment.

As a result, a majority of the Board consists of independent directors.

Lead Director

Pursuant to the Board Charter, the Board has appointed Peter C. Godsoe, O.C., O. Ont. as lead director. The lead director facilitates the functioning of the Board independently of management of the Company and provides independent leadership to the Board. Shareholders wishing to contact the lead director may write to the Lead Director, in care of the Corporate Secretary, at the head office of the Company, 333 Bloor Street East, 10th Floor, Toronto, Ontario M4W 1G9, Canada.

Board Committees

The Board has 7 permanent (or standing) committees. The Board may appoint special committees to deal with specific matters. A special committee might, for example, consider proposed material transactions between us and the significant shareholder or between us and our subsidiaries. In those cases the committee would consist entirely of independent directors who have no relationship to us or to the significant shareholder other than as a director. Charters for the various Board committees can be reviewed in the Corporate Governance section of our Company's website at rogers.com.

Controlled Company Exemption

The NYSE listing standards require a listed company to have, among other things, a nominating committee consisting entirely of independent directors. The rules permit a "controlled company" to be exempt from this requirement. A "controlled company" is a company of which more than 50% of the voting power is held by an individual, group or another company. The Board has determined that it is appropriate for directors affiliated with the controlling shareholder to serve on the Board committees apart from the Audit Committee because of the alignment of interests between our controlling shareholder and our minority shareholders, namely the creation of value and long-term growth. Accordingly, the Board has approved the Company's reliance on the controlled company exemption.

Foreign Private Issuer Status

Under the NYSE listing standards, a "foreign private issuer", such as the Company, is not required to comply with most of the NYSE corporate governance listing standards. However, foreign private issuers are required to disclose any significant ways in which their corporate governance practices differ from those followed by U.S. companies under NYSE listing standards.

(1) Appointment of Auditors

The NYSE listing standards require the audit committee of a U.S. company to be directly responsible for the appointment of any registered accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit review or attest services. There is an exception for foreign private issuers that are required under a home country law to have auditors selected pursuant to home country standards. Pursuant to the British Columbia Business Corporations Act, our auditors are to be appointed by the shareholders at the annual general meeting of the Company. Our audit committee is responsible for evaluating the auditors and advising the Board of its recommendation regarding the appointment of auditors.

(2) Shareholder Approval of Equity Compensation Plans

The NYSE listing standards also require shareholder approval of all equity compensation plans and material revisions to such plans. The definition of "equity compensation plan" covers plans that provide for the delivery of newly issued or treasury securities. The TSX rules provide that only the creation of, or material amendments to, equity compensation plans that provide for new issuances of securities are subject to shareholder approval in certain circumstances. We follow the TSX rules with respect to the requirements for shareholder approval of equity compensation plans and material revisions to such plans.

Corporate Governance Practices

The Board endorses the principle that our corporate governance practices are a fundamental part of our proper functioning as a corporation. The Board believes that these corporate governance practices enhance the interests of our security holders, employees, customers and of others dealing with us. Our Statement of Corporate Governance Practices can be reviewed in the Corporate Governance section of our Company's website at rogers.com.

Ethical Business Conduct

The Board has adopted both a Directors Code of Conduct and Ethics and the Business Conduct Guidelines for Officers and Employees, which we refer to as the Codes. The Codes require our directors, officers and employees to disclose any material transaction or relationship that could reasonably be expected to give rise to a conflict of interest, among other requirements. To ensure the directors exercise independent judgment in considering transactions, agreements or decisions in respect of which a director has a material interest, the directors follow a practice whereby any such director must be absent during any board discussion pertaining thereto and must not cast a vote on such matter.

Issues arising in connection with the Codes, including conflicts of interest are reported to the Audit Committee in the case of the Business Conduct Guidelines and to the Corporate Governance Committee in the case of the Directors Code of Conduct and Ethics, which are responsible for monitoring compliance with the applicable Code and applying and interpreting the applicable Code in particular situations. The Committees must inform the Board of any Code violation. Any waiver of a Code provision may be made only by the Board or by the applicable committee and reported to the Board.

The Codes can be reviewed in the Corporate Governance section of our Company's website at rogers.com.

In addition to the responsibilities specifically enumerated in its mandate, the Board may refer to the Audit Committee such matters and questions relating to the financial position of the Company and its affiliates as the Board may from time to time see fit.

Membership

The Committee shall be comprised of not less than three members of the Board each of whom shall be independent of management in accordance with applicable securities laws and based on the Company's Director Material Relationship Standards.

The Chief Executive Officer may attend each meeting of the Committee at the invitation of the Chair.

The members shall be selected based upon the following, in accordance with applicable laws, rules and regulations:

- (a) **Independence.** Each member shall be independent in accordance with applicable securities laws and based on the Company's Director Material Relationship Standards and in such regard shall have no direct or indirect material relationship with the Company which could, in the view of the Board, reasonably interfere with the exercise of a member's independent judgment.

For these purposes, an individual is financially literate if he or she has the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company's financial statements.

Resources And Authority

The Audit Committee shall have the authority to conduct any investigation necessary and appropriate to fulfilling its responsibilities, and has direct access to and the authority to communicate directly with the external auditors, internal auditors, the general counsel of the Company and other officers and employees of the Company.

The members of the Audit Committee shall have the right for the purpose of performing their duties to inspect all the books and records of the Company and its subsidiaries and to discuss such accounts and records and any matters relating to the financial position, risk management and internal controls of the Company with the officers and external and internal auditors of the Company and its subsidiaries.
