Transition Metals Corp.

Notes to Financial Statements

February 28, 2026 and 2025

(Expressed in Canadian Dollars)

(Unaudited)

1. Nature of Operations and Going Concern

Nature of Operations

Transition Metals Corp. ("TMC" or the "Company") was incorporated federally on June 30, 1999. The Company is engaged in the acquisition and exploration of mineral exploration properties in Canada and the United States. The Company's registered office is 100 King Street West, 1 First Canadian Place, Suite 6200, Toronto, Ontario, M5X 1B8.

Going concern

These financial statements have been prepared using accounting policies applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they become due. The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interests in the underlying properties, the discovery of economically recoverable reserves and the achievement of the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest in accordance with industry standards to the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions and political uncertainty.

The Company raises capital and equity for working capital and exploration and development of its properties. The Company's continuance as a going concern is dependent on its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operation. Management believes that it has sufficient working capital to support operations for the next 12 months. While the Company has been successful in securing financing in the past, there is no assurance that it will be able to do so in the future. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used, then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these financial statements.

These financial statements have been prepared in accordance with IFRS® Accounting Standards ("IFRS") applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities and commitments in other than the normal course of business and at amounts different from those presented in these financial statements.

2. Material Accounting Policy Information

Statement of Compliance

The Company applies IFRS as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Financial Reporting. Accordingly, they do not include all the information required for full annual financial statements.

2. Material Accounting Policy Information (continued)

Statement of Compliance (continued)

The policies applied in these unaudited condensed financial statements are based on IFRSs issued and outstanding as of April 28, 2026, the date the Board of Directors approved these unaudited condensed interim financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended August 31, 2025, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending August 31, 2026 could result in restatement of these unaudited condensed interim statements.

Changes in accounting policies

Future policies

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after September 1, 2025. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

In May 2024, the IASB issued amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments – Disclosures. The amendments clarify the derecognition of financial liabilities and introduces an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system. The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features and the treatment of non-recourse assets and contractually linked instruments (CLIs). Further, the amendments mandate additional disclosures in IFRS 7 for financial instruments with contingent features and equity instruments classified at FVOCI. The amendments are effective for annual periods starting on or after January 1, 2026. Retrospective application is required and early adoption is permitted.

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements to improve reporting of financial performance. The new standards replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required and early adoption is permitted.

The IASB issued narrow scope amendments as part of its periodic maintenance of IFRS. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards; IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7; IFRS 9 Financial Instruments; IFRS 10 Consolidated Financial Statements; and IAS 7 Statement of Cash Flows. The amendments to IFRS 9 address a conflict between IFRS 9 and IFRS 15 Revenue from Contracts with Customers over the initial measurement of trade receivables; and how a lessee accounts for the derecognition of a lease liability under paragraph 23 of IFRS 9. The amendments are effective for annual periods beginning on or after January 1, 2026, with earlier application permitted.

3. Restricted Cash Equivalents

As at February 28, 2026, the Company held GICs in the aggregate amount of \$56,276 (August 31, 2025 - \$56,276) as security for its corporate credit cards.

7. Share Capital (continued)

c) Transactions (continued)

Year ended August 31, 2025

On November 25, 2024, the Company closed a non-brokered private placement, issuing 3,999,998 Critical flow-through shares at a price of \$0.075 per share for gross proceeds of \$300,000. In connection with the private placement, the Company paid cash finders' fees totaling \$18,000 and issued 160,000 compensation warrants. Each compensation warrant entitles the holder thereof to purchase one common share of the Company at \$0.10 per share for a period of 18 months from the closing date.

The 160,000 compensation warrants were assigned a fair value of \$3,917 as estimated using the Black-Scholes pricing model based on the following assumptions: expected dividend yield of 0%; risk-free interest rate of 3.26%; share price of \$0.055; expected life of 1.5 years; and an expected volatility of 128% based on Company's historical trading data.

On February 28, 2025, the Company issued 200,000 shares based on the quoted market price for a total value of \$7,000 in satisfaction of the exploration property option payment (see note 9).

d) Stock Options

The Company has an Omnibus Incentive compensation plan that includes a stock option plan (the "Plan") for its directors, officers, consultants and key employees under which the Company may grant options to acquire a maximum number of 10% of the total issued and outstanding common shares of the Company. These options are non-transferable and are valid for a maximum of 5 years from the date of issue. Vesting terms and conditions are determined by the Board of Directors at the time of the grant. The exercise price of the options is fixed by the Board of Directors of the Company at the time of the grant at a minimum of the market price of the common shares, subject to all regulatory requirements. Expected volatility has been determined using the share price of the Company for the period equivalent to the life of the options prior to grant date.

At February 28, 2026, the following options were outstanding and available to be exercised:

Number Exercisable	Number Outstanding	Exercise Price	Expiration	Remaining Years	Grant Date Fair Value
1,275,000	1,275,000	\$0.07	September 29, 2027	1.58	\$0.06

f) Other (continued)

Highland Gold, Nova Scotia

On August 20, 2018, the Company entered into an option agreement to acquire a 100% interest in the Highland Gold property located in Nova Scotia. The Company has since completed additional staking. To earn a 100% interest, the Company is required to make cash payments of \$170,000 over four years (\$65,000 paid), issue \$175,000 worth of common shares of the Company (241,325 common shares issued based on VWAP pricing estimated to be worth \$65,000 at the time of issuance) over four years and incur exploration expenditures of \$1,500,000 over five years.

The agreement also provides for a milestone payment by the Company of \$500,000 in cash or shares within 90 days after a commercial production decision. If by the 8th anniversary of the agreement no production decision has been made, a milestone prepayment of \$25,000 per year must be paid to the optionee capped at a total payment of \$500,000. Upon exercise of the option the property is subject to a 1.0% NSR of which the Company can purchase 1.0% of the NSR for \$1,250,000. The optionee has been granted a 1.0% NSR on the adjacent company staked Claims. The Company retains the right to purchase from the optionee the Company granted 1.0% NSR on the adjacent properties for \$500,000.

During the year ended August 31, 2020, the Company was informed that no further approvals for work on the property would be granted until such time as the Government of Nova Scotia concluded consultations with First Nations, and the option agreement was amended such that all future requirements under the option agreement were suspended until all permits to continue exploration have been received by the Company. The Company made cash payment of \$7,500 (to be credited towards the cash portion of the option agreement consideration) on or before April 1 each year during the suspension. On August 17, 2023, the Company declared Force Majeure and discontinued making annual payments to the vendor.

Cryderman

The Company acquired certain claims in the Cryderman Lake property located in Ontario through an option agreement. The Vendor retained a 1.5% NSR. The Company reserves the right to buy back 0.5% of the NSR at any time for \$1,000,000.

Fostung

The Company staked and acquired certain claims in the Fostung property located near the town of Espanola, southwest of Sudbury, Ontario. The property is subject to a 1% NSR, of which 0.5% can be purchased for \$500,000.

On July 24, 2020, the Company executed an option and joint venture agreement with 1930153 Ontario Ltd. ("1930153 ON") whereby 1930153 ON can earn a up to an 100% interest in the Fostung project. During the year ended August 31, 2025, 1930153 ON earned a 50% interest by providing option payments totaling \$110,000 over 4 years and completing \$500,000 of exploration expenditures over 4 years. 1930153 ON may increase its interest to 80%, the buy-up option, by making additional cash payments of \$500,000 and incurring an additional \$1,500,000 of exploration expenditures prior to the second anniversary of the buy-up option.

1930153 ON may then further increase its interest to 100%, the second buy-up option, by making additional cash payments of \$4,500,000 prior to the second anniversary of the second buy-up option. Upon exercise of the second buy-up option the company will be granted a 2% NSR.

Homathko, British Columbia

The Homathko property consists of 100% owned staked claims in British Columbia. In October of 2020, the Company assigned a 1% NSR on the project to Nova Royalties Corp.

On December 19, 2022 the Company entered into an option agreement with Aurum Lake Mining ("Aurum"). Under the terms of the agreement, Aurum must pay a total of \$470,000 in optional cash payments over two years; \$20,000 (received) on signing; additional \$100,000 following exchange acceptance (received); \$150,000 on the first anniversary of the effective date (received); and \$200,000 on the second anniversary of the effective date. In addition, Aurum must incur work expenditures on the property totalling \$500,000 over two years and make a one-time \$5,000,000 lump sum payment to the Company upon the commencement of commercial production.

On March 6, 2025, the agreement was amended. Under the amended terms of the agreement, Aurum can acquire the property by:

- (i) making a cash payment of \$20,000 upon signing (received)
- (ii) making a cash payment of \$37,500 and issuing 300,000 common shares of Aurum to the Company before March 14, 2025 (received);
- (iii) making a cash payment of \$37,500 and issuing 300,000 common shares of Aurum to the Company before July 10, 2025 (received);
- (iv) making a cash payment of \$200,000 on or prior to the 2nd anniversary date; and
- (v) Aurum must incur work expenditures on the property totalling \$600,000 by December 31, 2026 and make a one-time \$5,000,000 lump sum payment to the Company upon the commencement of commercial production.

Upon vesting an interest in the property, the Company will be granted a 2.0% NSR.

Duntara

In May 2024, the property was assigned to a private Newfoundland based mineral exploration group via a purchase and sale agreement in exchange for a 2% NSR and certain obligations towards the maintenance of the property in good standing.

Thompson, British Columbia

The Thompson property consists of staked and optioned claims located in the Vernon Mining Division, southeastern British Columbia. The optioned claims are subject to an agreement whereby the Company can earn a 100% interest in exchange for optional payments of \$100,000 (\$10,000 paid) and the issuance of 250,000 common shares of the Company over 4 years subject to a 1.5% NSR retained by the optionors, of which 0.5% can be purchased for \$1,000,000. As at February 28, 2026, the Company had initiated the process of returning the property to the optionors.

Island Copper - Ontario

The Island Copper property consists of a 100% owned staked claims in the Sault Ste. Marie Mining District.

10. Capital Management

Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the current size of the Company. There were no changes to its capital management approach during the periods ended February 28, 2026 and 2025. The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern. The Company is dependent on its strategic alliance partners as well as on the capital markets to finance exploration and development activities.

11. Financial Instruments and Financial Risk Factors

The Company has established a fair value hierarchy that reflects the significance of inputs of valuation techniques used in making fair value measurements as follows:

- Level One - includes quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level Two - includes inputs that are observable other than quoted prices included in level one.
- Level Three - includes inputs that are not based on observable market data.

The financial instruments that are not measured at fair value on the statement of financial position include cash, other receivables and accounts payable and accrued liabilities. The fair values of these financial instruments approximate their carrying values due to their short-term nature.

The following table illustrates the classification of the Company's financial instruments, measured at fair value in the statements of financial position as of February 28, 2026 and August 31, 2025 categorized into the levels of the fair value hierarchy.

Level 3 Hierarchy

The following table presents the changes in fair value measurements of financial instruments classified as Level 3 for the periods ended February 28, 2026 and 2025. These financial instruments are measured at fair value utilizing non-observable market inputs.

	February 28, 2026	August 31, 2025
Investments, fair value		
Balance, beginning of the period	\$ 452,000	\$ 190,610
Unrealized gain on investment	-	261,390
Total	\$ 452,000	\$ 452,000

Within level 3, the Company includes private company investments that are not quoted on a exchange. The key assumptions used in the valuation of these instruments include (but are not limited to) the value at which a recent financing was done by the investee, company specific information, trend in general market conditions and the share performance of comparable publicly-traded companies.

The following table presents the fair value, categorized by key valuation techniques and the unobservable inputs used within level 3 for the period ended February 28, 2026.

<i>Description</i>	<i>Fair value</i>	<i>Valuation technique</i>	<i>Significant unobservable units</i>
Rich Copper	\$50,000	Recent financing	Marketability of shares
West Kitikmeot Gold	\$402,000	Recent financing	Marketability of shares
	\$452,000		

As valuations of investments for which market quotations are not readily available, are inherently uncertain they may fluctuate within short periods of time and are based on estimates, determination of fair value may differ materially from the values that would have resulted if a ready market existed for the investments.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no material changes in these risks, objectives, policies and procedures during the periods ended February 28, 2026 and 2025.

11. Financial Instruments and Financial Risk Factors (continued)

Credit Risk

The Company's credit risk is primarily attributable to its sales tax recoverable. The Company has no significant concentration of credit risk arising from its operations. Management believes that the credit risk concentration with respect to financial instruments included in other assets is low. The Company believes that there are no credit risk associated with any customer.

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at February 28, 2026, the Company has current assets totaling \$4,585,868 (August 31, 2025 – \$4,853,254) to settle current liabilities of \$135,031 (August 31, 2025 - \$343,460), excluding flow-through liabilities as those are settled through qualifying expenditures (note 12).

Price Risk

The Company is exposed to price risk with respect to commodity prices. The ability of the Company to develop its properties and the future profitability of the Company is directly related to the market price of certain minerals.

Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. This risk is managed through a careful selection of investments and other financial instruments within the parameters of the investment strategies.

Other price risk typically arises from exposure to equity and commodity securities. If the prices on the respective exchanges for these securities increased or decreased by 10%, all other variables held constant the investment value could have increased or decreased by approximately \$261,782 (August 31, 2025 - \$170,723).

Interest Rate Risk

The Company does not currently have any outstanding variable interest bearing loans and, therefore, the Company is not exposed to interest rate risk through fluctuation in the prime interest rate.

12. Commitments and Contingencies

Environmental Contingencies

The Company's exploration activities are subject to various federal, state, provincial, and international laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

Flow-Through Expenditures

From time-to time, the Company and its associates enter into flow-through financings and indemnify the subscribers of flow-through shares for any tax related amounts that become payable by the subscriber. In the ordinary course of business, the Company is subject to ongoing audits by tax authorities. There are many transactions and calculations for which the ultimate tax determination is uncertain. While the Company believes that its tax filing positions are appropriate and supportable, from time to time, certain matters are reviewed and challenged by the tax authorities. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities.

12. Commitments and Contingencies (continued)

Flow-Through Commitment

Pursuant to the terms of the flow-through share agreements, the Company needs to comply with its flowthrough contractual obligations to subscribers with respect to the Income Tax Act (Canada) requirements for flow-through shares. The Company was committed to incur flow-through eligible expenditures of \$758,133 in Canadian Exploration Expenditures (as such term is defined in the Income Tax Act (Canada)) by December 31, 2026 arising from flow-through offerings. As at February 28, 2026, the Company has incurred the required flow-through eligible expenditures.

13. Subsequent events

On April 27, 2026, the Company announced that it intends to raise up to \$750,000 (reduced from \$1,000,000 originally announced on March 2, 2026) by way of a non-brokered private placement consisting of up to 6,521,739 Charity Flow Through Units (the "CFU") at a price of \$0.115 per CFU. The initial purchasers of the CFU may subsequently donate such CFU to registered charitable organizations, who may in turn choose to sell such CFUs (the "Re-Offered Units") to purchasers at a price of \$0.08 per Re-Offered Unit (the "Re-Offer Price") or sell such Re-Offered Units to purchasers at the Re-Offer Price. The Company will not be a party to any such arrangements. The Re-Offered Units will consist of one common share and one half of one common share purchase warrant. Each whole warrant will entitle the holder to purchase one common share in capital of the Company at a price of \$0.115 per common share for a period of 18 months from closing. A finder's fee may be paid to finders, as determined by mutual agreement between the Company and the finders and is subject to regulatory approval. The finders' fee will consist of 6% cash for CFUs sold to purchasers introduced by such finders, and non-transferable common share purchase warrants equal to 6% of such CFUs sold to purchasers ("Compensation Warrants"). The Compensation Warrants will permit the holder to purchase one common share in the capital of the Company at a price of \$0.115 per common share for a period of 18 month from closing.

On April 27, 2026, the Company also announced that it acquired a 100% interest in the Empire Lake Project, a prospective vanadium property located in northwestern Ontario, through direct staking.
