1. NATURE OF OPERATIONS AND GOING CONCERN

Black Dragon Gold Corp. (the "Company") was incorporated under the laws of the Province of British Columbia on August 20, 2007. The Company's head office address is Regent House, 65 Rodney Road, Cheltenham GL50 1HX U.K. The registered and records office address is 1000 Cathedral Place, 925 West Georgia Street, Vancouver, BC V6C 3L2. On February 18, 2019 the Company announced that the Company's common shares without par value (the "Shares") were voluntarily delisted from the TSX-V effective at the close of trading on February 28, 2019. The Shares continue to trade on the Australian Securities Exchange ("ASX") as CHESS Depository Interests (or "CDI's") under the ASX Code "BDG".

The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, or other business and financial transactions which would assure continuation of the Company's operations and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern. There can be no assurance that the Company will be able to continue to raise funds, in which case the Company may be unable to meet its obligations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded in the financial statements.

The unaudited condensed consolidated interim financial statements for the three months ended September 30, 2024, do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These unaudited condensed consolidated interim financial statements for the three months ended September 30, 2024, are prepared in accordance with International Accounting Standards ("IAS 34"), Interim Financial Reporting. These unaudited condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of application as the Company's most recent annual audited consolidated financial statements. These unaudited condensed consolidated interim financial statements do not include all information and disclosures required in audited consolidated financial statements and should be read in conjunction with the Company's December 31, 2023, audited consolidated financial statements.

4. EXPLORATION AND EVALUATION ASSETS

Although the Company has taken steps to verify title to its mineral property in which it has an interest, these procedures do not guarantee the Company's title. Its property may be subject to prior agreements or transfers and title may be affected by undetected defects. Further, we make judgements for properties where concessions terms have expired, and a renewal application has been made and is awaiting approval. We use judgement as to whether the concession renewal application is probable to be received, but ultimately this is beyond our control. If a renewal application is not approved, we could lose rights to those concession.

Salave Gold Property

The Salave Project is comprised of 30-year-term mining concessions over the resource area in the province of Asturias, Spain.

A Preliminary Economic Assessment was released in 2019 and the Company submitted its final Environmental Impact Assessment for the property during 2022 and is awaiting a response from the Asturian Government.

Marlee Gold Project

During 2022, the Company acquired Australian mining explorer Marlee Gold Pty Ltd, 100% holder of Padbury Gold and Ivan Well projects.

During the half year ended June 30, 2024 the Company successfully negotiated the 100% sale of its Padbury Gold assets located in the North Yilgarn Craton near Meekatharra to Parbo Resources. Tenements sold were Padbury Gold (E51/1942) and Padbury Gold Extension (E51/1969). Cash consideration of AUD\$150,000 (excluding GST). The Company retains the 115km2 Ian Well tenement (E69/3818) further north-east towards Wiluna in the northern Goldfields, which still offers early-stage exploration potential for untested gold anomalism.

7. RELATED PARTY TRANSACTIONS

The Company considers personnel with the authority and responsibility for planning, directing and controlling the activities of the Company to be key management personnel.

Transactions with key management personnel

The following amounts were incurred with respect of key management personnel being the Managing Director/Chief Executive Officer, Directors, and the Chief Financial Officer of the Company:

	Three months ended September 30, 2024	Three months ended September 30, 2023

TOTAL	\$128,199	\$108,981

As at September 30, 2024, included in accounts payable and accrued liabilities for unpaid standard directors' fees is \$3,700 (September 30, 2023 - \$14,644) that is due to directors, officers and companies controlled by directors or officers.

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company has exposure to the following risks from its use of financial instruments:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfil its payment obligations. The Company's cash and cash equivalents are held at large financial institutions, and it believes it has no significant credit risk. The Company's receivables are due from the Government of Canada, Government of Spain, and Government of Australia, and are therefore considered to have no significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating investing and financing activities. As at September 30, 2024, the Company had current assets of \$1,075,434 to settle current liabilities of \$82,163 which either have contractual maturities of less than 30 days and are subject to normal trade terms or are due on demand. The Company is exposed to liquidity risk.

Market risk

Market risk is the risk of loss that may arise from changes in market factors, such as interest rates and foreign exchange rates.

a) Interest rate risk

Interest rate risk is the risk due to variability of interest rates. The Company is exposed to interest rate risk on its bank accounts. The income earned on the bank accounts are subject to the movements in interest rates. The Company has cash balances and no-interest bearing debt, therefore, interest rate risk is nominal.

b) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company funds certain operations, exploration and administrative expenses in Spain by using Euros converted from its Canadian bank accounts. Management believes the foreign exchange risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk.

Based on the Company's Euro, AUD, USD, and GBP denominated financial instruments at September 30, 2024, a 10% change in exchange rates between the Canadian dollar, Euro, AUD, USD, and GBP would result in a change of \$93,000 in foreign exchange gain or loss.

10. CAPITAL MANAGEMENT

The Company's capital structure consists of shareholders' equity. The Company's objective when managing capital, which is unchanged from 2023, is to maintain adequate levels of funding to support the development of its business and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing, selling assets, and incurring debt. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. The Company invests all capital that is surplus to its immediate operational needs in short-term, high liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management during the year. The Company will need to raise additional capital by obtaining equity financing, selling assets and incurring debt to develop its business. The Company is not subject to any capital restrictions.

11. SEGMENT INFORMATION

The Company primarily operates in one reportable operating segment, being the acquisition, exploration of exploration and evaluation assets located in Spain and Australia.

12. SUBSEQUENT EVENT

•

On November 1, 2024, the Company completed a private placement to Spanish based high net worth and sophisticated investors. 28,481,720 CDI's at AUD\$0.025 each were issued, with AUD\$710k raised.

There were no other subsequent events to report post September 30, 2024.
