

# Digital Commodities Provides Corporate Update amid Record Gold Prices

Vancouver, British Columbia--(Newsfile Corp. - April 30, 2025) - Digital Commodities Capital Corp. (CSE: RIPP) (OTCQB: DGCMF) (FSE: W040) ("**Digital Commodities**" or the "**Company**"), is pleased to provide a corporate update amid record-breaking commodity market conditions and continued portfolio progress.

With gold recently surpassing \$3,300 USD per ounce, market interest in real assets has accelerated dramatically. Digital Commodities is strategically positioned to benefit from this macro environment through its diversified portfolio of real assets and equity investments.

"We believe this is a defining moment for the commodities sector," said Brayden Sutton, President & CEO of Digital Commodities. "The world is rediscovering the importance of tangible value-and our platform is built to identify and unlock it."

Supported by an experienced board, an agile team, and a flexible structure, Digital Commodities remains focused on delivering shareholder value through disciplined, opportunistic investments in both real and digital assets. As an investment issuer centered on real assets, the Company maintains a diversified portfolio spanning physical commodities, digital assets, liquid public equities, and select private ventures. Digital Commodities remains well-capitalized, unleveraged, and committed to disciplined capital deployment.

## Core Portfolio Holdings

- **Physical uranium holdings** approximating roughly 1,454 pounds of U<sub>3</sub>O<sub>8</sub> held indirectly through units of the Sprott Physical Uranium Trust (TSX: U.UN)

The Company maintains a strategic view on uranium as a key component of global energy transition, and believes fundamentals remain strong for long-term price appreciation. U<sub>3</sub>O<sub>8</sub> (triuranium octoxide) is critical to the tech sector and the future of energy because it fuels nuclear power-one of the most reliable, low-carbon energy sources needed to support the rapidly growing demand for clean electricity in data centers, AI infrastructure, and global electrification.

- **Physical copper holdings** approximating 16,719 pounds of copper held via the Sprott Physical Copper Trust (TSX: COP.UN)

Copper is the backbone of the modern economy - often called the "glue of the modern world," copper is essential due to its unmatched conductivity and versatility. It plays a critical role across nearly every major sector-from EVs and renewable energy to semiconductors, 5G, and construction-cementing its place as a cornerstone of the digital and electrified future.

- **Physical silver holdings** approximating 3,470 ounces of silver held via the Sprott Physical Silver Trust (TSX: PSLV)

Silver is a critical industrial metal with unmatched thermal and electrical conductivity, making it essential for solar panels, EVs, semiconductors, and the entire green energy transition-while also serving as real money and a timeless store of value in uncertain markets.

- **XRP holdings** approximating 108,000 XRP tokens of the digital asset, leveraging Ripple's blockchain technology for fast, low-cost cross-border payments and growing institutional adoption.

The Company holds exposure to one of the most widely adopted digital assets in the blockchain space-XRP-designed for fast, low-cost cross-border payments and increasingly integrated into institutional

settlement systems. XRP sits at the intersection of traditional finance and crypto, offering real utility in a sector seeking both scalability and regulatory clarity.

- **Gold Exposure:** In addition to its physical metals holdings, the Company maintains strategic equity positions, including 10,000,000 common shares of Gold Finder Resources Ltd., acquired at an approximate \$1.1 million pre-money valuation. Following the investment, the Company appointed a Director to Gold Finder's board at the request of the Canadian Securities Exchange (CSE).

In addition to its core holdings, Digital Commodities is actively evaluating new opportunities across the mining, energy, critical materials, and technology sectors-consistent with its disciplined, high-conviction investment strategy that avoids the use of debt or leverage.

## Digital Marketing Agreements

To further amplify its brand and investment story, Digital Commodities has entered into strategic marketing agreements:

Senergy Communications Capital Inc. ("Senergy") is a digital marketing and IR firm that will assist with online communications and strategies with the goal of increasing awareness of the Company and its business model. This collaboration is set to enhance the Company's visibility and drive impactful growth within the investment community.

Senergy has been retained for an initial term of one month ("Term") with an anticipated start date of May 1st, 2025, to assist the Company in raising investor awareness. The agreement may be extended additional Terms by mutual written consent of the parties. In consideration for the services provided by Senergy, the Company has agreed to pay a fee of \$75,000 CAD plus GST for the term. The fees to Senergy will be used for coordinating and carrying out marketing of the Company and for general awareness of the Company and will also cover expenses and costs for media distribution, and advertising.

To the Company's knowledge, Senergy and its principal Aleem Fidai does not have any interest, directly or indirectly, in Digital Commodities or any right or intent to acquire such an interest. The agreement with Senergy is an arm's-length service provider contract and is subject to Canadian Securities Exchange approval. Senergy has a business address of 228-1122 Mainland Street Vancouver, BC, V6B 5L1, and its contact information is as follows: [info@senergy.capital](mailto:info@senergy.capital) 778-772-6740.

The Company has also engaged Aktiencheck.de AG ("Aktiencheck") and its principal, Stefan Lindam, pursuant to which Aktiencheck will assist with an initial European marketing awareness program. The engagement includes up to five editorial write-ups, stand-alone e-mail marketing campaign distribution of the editorial write-ups to opt-in e-mail addresses of active investors, targeted distribution of the editorial reports to active investors, distribution of the editorial write-ups through social media to active financial investors and distribution of the editorial write-ups through the [aktiencheck.de](http://aktiencheck.de) website and search engine marketing. Aktiencheck.de AG will set up on-line advertising portals and digital marketing and will be retained commencing May 1st, 2025, for a period of up to 3 months. In consideration of the marketing services to be provided by Aktiencheck, the Company has agreed to pay a total of €25,000. No shares or options will be issued to Aktiencheck.de AG or its principal as part of this engagement. To the Company's knowledge, Aktiencheck and its principal Stefan Lindam does not have any interest, directly or indirectly, in Digital Commodities or any right or intent to acquire such an interest. The agreement with Aktiencheck is an arm's-length service provider contract and is subject to Canadian Securities Exchange approval. Aktiencheck has a business address of Bahnhofstraße 4, 56470 Bad Marienberg, Deutschland and its contact information is as follows: [stefan.lindam@aktiencheck.de](mailto:stefan.lindam@aktiencheck.de) +49.2661.9890020.

### **Disclaimer**

#### *Forward-Looking Statements*

*This release includes certain statements and information that may constitute forward-looking information within the meaning of applicable Canadian securities laws. Forward-looking statements relate to future events or future performance and reflect the expectations or beliefs of management of the Company regarding future events. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events, or results "may", "could", "should", "would" or "occur". This information and these statements, referred to herein as "forward-looking statements", are not historical facts, are made as of the date of this news release and include without limitation, statements regarding the fact that the Company is actively evaluating additional accretive opportunities to expand its portfolio; that the Company's platform is built to identify and unlock the importance of tangible value; the expected increase in the prices of the Company's holdings; the benefits that will be offered and the role that will be played by the various metals held by the company in the global economy; the fact that Digital Commodities is actively reviewing new opportunities across mining, energy, critical materials and technology sectors; and statements relating to the Company's strategic marketing agreements, including the services and consideration expected to be provided under such agreements; and the expected benefits of such agreements.*

*In making the forward-looking statements in this news release, the Company has applied certain material assumptions, including without limitation, that the Company will carry on its business plans as currently expected; that the Company will be able to capitalize on its investments as expected; that metal prices will increase in line with management's expectations; that metals will impact the global economy as expected; that the Company's business plans will not change; that the Company will not come across regulatory or other barriers in carrying out its business plans; that the Company will have access to the required resources and capital required to carry out its business plans; that management's expectations the cryptocurrency and commodities market will prove to be accurate; and that the Company's marketing agreements will not be terminated early and will provide the benefits currently expected.*

*These forward-looking statements involve numerous risks and uncertainties, and actual results might differ materially from results suggested in any forward-looking statements. These risks and uncertainties include, among other things, that management's expectations regarding the cryptocurrency and commodities markets will prove to be inaccurate; that the Company will not be successful in hedging against currency debasement or gaining exposure to the critical commodities that power the digital revolution; unanticipated costs; fluctuations in commodity prices; that metals will fail to impact the global economy as and to the extent expected; changes in legislation impacting the*

*commodity, resource and cryptocurrency sectors; the Company will fail to gain or maintain access to the resources required to carry out its business plans; changes in the Company's business plans; social or political changes impacting the Company's investment plans; the anticipated growth in the digital asset and cryptocurrency sectors may not occur as anticipated, or at all; the volatility of the digital asset and cryptocurrency markets; the impact of governmental or regulatory orders or decisions on the digital asset and cryptocurrency sectors; market volatility for the Company's securities; the risk that the marketing agreements entered into will be terminated early or will not provide the expected benefits. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release. Readers are cautioned that the foregoing list of factors is not exhaustive. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated, or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial out-look that are incorporated by reference herein, except in accordance with applicable securities laws.*

**Neither the CSE nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.**
