Item 7.1 — General Description of Capital Structure

The information required under the heading General Description of Capital Structure is contained in the 2013 Annual Audited Financial Statements, Note 23 and is incorporated herein by reference.

Each Class A Voting share of RCI carries the right to fifty votes on a poll and may be voted at the meetings of shareholders of RCI. Holders of Class B Non-Voting shares and any series of preferred shares of the Company are entitled to receive notice of and to attend meetings of shareholders of RCI but, except as required by law, are not entitled to vote at such meetings. **If an offer is made to purchase outstanding Class A Voting shares, there is no requirement under applicable law or the Company's constating documents that an offer be made for the outstanding Class B Non-Voting shares and there is no other protection available to holders of Class B Non-Voting shares under the Company's constating documents. If an offer is made to purchase both Class A Voting shares and Class B Non-Voting shares, the offer for the Class A Voting shares may be made on different terms than the offer made to the holders of Class B Non-Voting shares.**

Item 7.2 — Constraints

Restrictions on the Transfer, Voting and Issue of Shares

We have ownership interests in several Canadian entities licenced or authorized to operate under applicable communications laws (the "**Laws**") including the:

- *Broadcasting Act* (Canada)
- *Telecommunications Act* (Canada)
- *Radiocommunication Act* (Canada)

The Laws have foreign ownership limits (the "**Limits**") for various classes of licensed or authorized entities. You can obtain a copy of the Limits from our Secretary.

The Laws also impose a number of restrictions on changes in effective control of licencees or authorized entities, and the transfer of licences held by them. Our Articles of Amalgamation therefore impose restrictions on the issue and transfer of our shares and the exercise of voting rights to ensure that we and any Canadian corporation in which we have any interest are:

- qualified to hold or obtain any cable television, broadcasting or telecommunications licence or authorized to operate a similar entity under the Laws; and
- not in breach of the Laws or any licences issued to us or to any of our Canadian subsidiaries, associates or affiliates under the Laws.

If our Board considers that our or our subsidiaries' ability to hold and obtain licences, or to remain in compliance with the Laws, may be in jeopardy, the Board may invoke the restrictions in our Articles of Amalgamation on transfer, voting and issue of our shares.

Item 7.3 — Ratings

Credit ratings provide an independent measure of credit quality of an issue of securities, and can affect our ability to obtain short-term and long-term financing and the terms of the financing. If rating agencies lower the credit ratings on our debt, particularly a downgrade below investment grade, it could adversely affect our cost of financing and access to liquidity and capital.

We have engaged each of Fitch Ratings (Fitch), Moody's Investors Service (Moody's) and Standard & Poor's Ratings Services (Standard & Poor's) to rate our public debt issues. In May 2013, each of Fitch and Standard & Poor's upgraded RCI's senior unsecured debt to BBB+ (from BBB) with a stable outlook. Moody's comparably equivalent rating of Baa1 with a stable outlook has not changed from last year.

The table below shows the credit ratings on our borrowings received from the rating agencies as of December 31, 2013:

2013	Standard & Poor's	Fitch	Moody's
Corporate credit issuer default rating	BBB+ with a stable outlook	BBB+ with a stable outlook	Baa1, stable outlook
Senior unsecured debt	BBB+ with a stable outlook	BBB+ with a stable outlook	Baa1, stable outlook

Ratings for debt instruments across the universe of composite rates range from AAA (Standard & Poor's and Fitch) or Aaa (Moody's) representing the highest quality of securities rated, to D (Standard & Poor's), C (Moody's) and Substantial Risk (Fitch) for the lowest quality of securities rated.

Credit ratings are not recommendations for investors to purchase, hold or sell the rated securities, nor are they a comment on market price or investor suitability. There is no assurance that a rating will remain in effect for a given period of time, or that a rating will not be revised or withdrawn entirely by a rating agency if it believes circumstances warrant it. The ratings on our senior debt provided by Standard & Poor's, Fitch and Moody's are investment grade ratings.

Composition of the Board

The Board currently has 17 members.

Independent Directors

The Board is responsible for determining whether a director is “independent” within the meaning of National Instrument 58-101 – Disclosure of Corporate Governance Practices.

Certain directors may be principals of, partners in or hold other positions with entities that provide legal, financial or other services to the Company. The Board has adopted discretionary Director Material Relationship Standards for the purpose of assisting the Board in making determinations whether or not a direct or indirect business, commercial, banking, consulting, professional or charitable relationship that a director may have with the Company or its subsidiaries is a material relationship that could, in the view of the Board, reasonably interfere with the exercise of the director’s independent judgment. These standards can be reviewed in the Corporate Governance section of our Company’s website at rogers.com/investors.

Based on the information provided by each director and the recommendations of the Corporate Governance Committee, the Board has determined that the following directors are independent in accordance with the requirements of NI 58-101 and the standards referred to above. In making this determination, the Board considered all of the relationships that each director has with the Company (taking the discretionary standards referred to above and other factors the Board considered relevant into account) and concluded that none of the relationships considered would likely impair the director’s independent judgment.

As a result, a majority of the Board consists of independent directors.

Lead Director

Pursuant to the Board Charter, the Board has appointed Peter C. Godsoe, O.C., O. Ont. as lead director. The lead director facilitates the functioning of the Board independently of management of the Company and provides independent leadership to the Board. Shareholders wishing to contact the lead director may write to the Lead Director, in care of the Corporate Secretary, at the head office of the Company, 333 Bloor Street East, 10th Floor, Toronto, Ontario M4W 1G9, Canada.

Board Committees

The Board has 7 permanent (or standing) committees. The Board may appoint special committees to deal with specific matters. A special committee might, for example, consider proposed material transactions between us and the significant shareholder or between us and our subsidiaries. In those cases the committee would consist entirely of independent directors who have no relationship to us or to the significant shareholder other than as a director. Charters for the various Board committees can be reviewed in the Corporate Governance section of our Company’s website at rogers.com/investors.

Controlled Company Exemption

The NYSE listing standards require a listed company to have, among other things, a nominating committee consisting entirely of independent directors. The rules permit a “controlled company” to be exempt from this requirement. A “controlled company” is a company of which more than 50% of the voting power is held by an individual, group or another company. The Board has determined that it is appropriate for directors affiliated with the controlling shareholder to serve on the Board committees apart from the Audit Committee because of the alignment of interests between our controlling shareholder and our minority shareholders, namely the creation of value and long-term growth. Accordingly, the Board has approved the Company’s reliance on the controlled company exemption.

Foreign Private Issuer Status

Under the NYSE listing standards, a “foreign private issuer”, such as the Company, is not required to comply with most of the NYSE corporate governance listing standards. However, foreign private issuers are required to disclose any significant ways in which their corporate governance practices differ from those followed by U.S. companies under NYSE listing standards.

(1) Appointment of Auditors

The NYSE listing standards require the audit committee of a U.S. company to be directly responsible for the appointment of any registered accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit review or attest services. There is an exception for foreign private issuers that are required under a home country law to have auditors selected pursuant to home country standards. Pursuant to the British Columbia Business Corporations Act, our auditors are to be appointed by the shareholders at the annual general meeting of the Company. Our audit committee is responsible for evaluating the auditors and advising the Board of its recommendation regarding the appointment of auditors.

(2) Shareholder Approval of Equity Compensation Plans

The NYSE listing standards also require shareholder approval of all equity compensation plans and material revisions to such plans. The definition of “equity compensation plan” covers plans that provide for the delivery of newly issued or treasury securities. The TSX rules provide that only the creation of, or material amendments to, equity compensation plans that provide for new issuances of securities are subject to shareholder approval in certain circumstances. We follow the TSX rules with respect to the requirements for shareholder approval of equity compensation plans and material revisions to such plans.

Corporate Governance Practices

The Board endorses the principle that our corporate governance practices are a fundamental part of our proper functioning as a corporation. The Board believes that these corporate governance practices enhance the interests of our security holders, employees, customers and of others dealing with us. Our Statement of Corporate Governance Practices can be reviewed in the Corporate Governance section of our Company’s website at rogers.com/investors.

Ethical Business Conduct

The Board has adopted both a Directors Code of Conduct and Ethics and the Business Conduct Policy for Directors, Officers and Employees, which we refer to as the Codes. The Codes require our directors, officers and employees to disclose any material transaction or relationship that could reasonably be expected to give rise to a conflict of interest, among other requirements.

To ensure the directors exercise independent judgment in considering transactions, agreements or decisions in respect of which a director has a material interest, the directors follow a practice whereby any such director with a material interest must be absent during any board discussion pertaining thereto and must not cast a vote on such matter.

Issues arising in connection with the Codes, including conflicts of interest are reported to the Audit Committee in the case of the Business Conduct Policy and to the Corporate Governance Committee in the case of the Directors Code of Conduct and Ethics, which are responsible for monitoring compliance with the applicable Code and applying and interpreting the applicable Code in particular situations. The Committees must inform the Board of any Code violation. Any waiver of a Code provision may be made only by the Board or by the applicable committee and reported to the Board.

The Codes can be reviewed in the Corporate Governance section of our Company's website at rogers.com/investors.

For these purposes, an individual is financially literate if he or she has the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company's financial statements.
