WEST CENTRAL PELLETING LTD. WEST CENTRAL PELLETING LTD. ANNOUNCES NORMAL COURSE ISSUER BID

West Central Pelleting Ltd. (“WCP” or the “Corporation”) is pleased to announce its intention to implement a normal course issuer bid (“NCIB”).

WCP’s Board of Directors and management believe that from time to time the market price of the Class “B” common shares of the Corporation (the “Class “B” Shares”) may not fully reflect the underlying value of the Company’s business and that the purchase and cancellation of the Class “B” Shares is an effective use of its financial resources to enhance shareholder value.

Pursuant to the NCIB, WCP may purchase through its own share trading platform at https://www.westcentralpelleting.com/share_trading.html, from time to time over the next 12 months, up to 805 Class “B” Shares, being 5.0% of the issued and outstanding Class “B” Shares. Class “B” Shares purchased under the NCIB will be subsequently cancelled by the Corporation. The NCIB will commence on July 4, 2025 and will terminate the earlier of July 3, 2026 or on the date on which the maximum number of Class “B” Shares which can be acquired pursuant to the NCIB are purchased. Although the Corporation has a present intention to acquire its Class “B” Shares pursuant to the NCIB, the Corporation will not be obligated to make any purchases and purchases may be suspended by the Corporation at any time. The Company reserves the right to terminate the NCIB earlier if it feels it is appropriate to do so.

WCP will repurchase its Class “B” Shares utilizing the timing and registration mechanisms already contained on its own share trading platform. Such repurchases will be subject to certain additional parameters set by the Corporation from time to time which would govern the purchase of Class “B” Shares through its share trading platform.

As of July 3, 2025, there are 16,100 issued and outstanding Class “B” Shares. The Corporation will purchase the Class “B” Shares at the market price of the Class “B” Shares on the date of purchase, determined in accordance with the relevant provisions of section 1.11 of NI-62-104.
