

Lithium Royalty Corp. Announces Exemptive Relief in Substantial Issuer Bid

TORONTO--(BUSINESS WIRE)--April 11, 2025--Lithium Royalty Corp. (TSX: LIRC) (“LRC” or the “Company”) announced today that, in connection with the Company’s ongoing substantial issuer bid (the “Offer”), the Ontario Securities Commission has granted an order (the “Relief Order”) permitting the Company to extend the Offer, if it determines to do so, without first taking up any common shares of the Company (the “Shares”) previously deposited. For technical reasons, the Offer could not be extended without the Relief Order.

At this time, the Company has not yet determined if it will extend the Offer, and the expiration of the Offer remains 5:00 pm (Toronto time) on April 30, 2025 (the “Expiry Time”). In the event the Offer is extended, the Company will provide a further news release disclosing the details of such extension.

Details of the Offer, including instructions for tendering Shares to the Offer, are included in the formal offer to purchase and issuer bid circular, letter of transmittal, notice of guaranteed delivery and other related documents (the “Offer Documents”). Provided that the notice of guaranteed delivery is received prior to the Expiry Time, the Company will accept the associated share certificates and letter of transmittal that are received on or before the end of the first trading day on the Toronto Stock Exchange after the Expiry Time.

The Offer Documents are available free of charge on the System for Electronic Data Analysis and Retrieval+ (“SEDAR+”) at www.sedarplus.ca. Shareholders should carefully read the Offer Documents prior to making a decision with respect to the Offer.

This press release is for informational purposes only and does not constitute an offer to buy or the solicitation of an offer to sell Shares. The solicitation and the offer to buy Shares will only be made pursuant to the Offer Documents.

About Lithium Royalty Corp.

LRC is a lithium-focused royalty company organized in Canada, which has established a globally diversified portfolio of 35 revenue royalties on mineral properties that are related to the electrification and decarbonization of the global economy. The Company’s royalty portfolio is focused on the battery supply chain for the transportation and energy storage industries and is underpinned by mineral properties that produce or are expected to produce lithium and other battery materials. LRC is a signatory to the Principles for Responsible Investment; the integration of ESG factors and sustainable mining are considerations in our investment analysis and royalty acquisitions.

Forward Looking Statements

This press release contains “forward-looking information” and “forward-looking statements” within the meaning of applicable Canadian securities laws, which may include, but are not limited to the Company’s consideration of whether to extend the Offer. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budgets”, “potential for”, “scheduled”, “estimates”, “forecasts”, “predicts”, “projects”, “intends”, “targets”, “aims”, “anticipates” or “believes” or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions “may”, “could”, “should”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of LRC to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking information is based on management’s beliefs and assumptions and on information currently available to management. The forward-looking statements herein are made as of the date of this press release only and LRC

does not assume any obligation to update or revise them to reflect new information, estimates or opinions, future events or results or otherwise, except as required by applicable law.

A number of factors could cause actual events or results to differ materially from any forward-looking statement, including, without limitation: fluctuations in the prices of the primary commodities that drive royalty revenue (including various lithium products); fluctuations in the value of the Canadian and Australian dollar and any other currency in which revenue is generated, relative to the U.S. dollar; changes in national and local government legislation, including permitting and licensing regimes and taxation policies and the enforcement thereof; the adoption of a global minimum tax on corporations; regulatory, political or economic developments in any of the countries where properties in which LRC holds a royalty or other interest are located or through which they are held; risks related to the operators of the properties in which LRC holds a royalty or other interest, including changes in the ownership and control of such operators; relinquishment or sale of mineral properties; influence of macroeconomic developments; business opportunities that become available to, or are pursued by LRC; reduced access to debt and equity capital; litigation; title, permit or license disputes related to interests on any of the properties in which LRC holds a royalty or other interest; whether or not the Company is determined to have “passive foreign investment company” (“PFIC”) status as defined in Section 1297 of the United States Internal Revenue Code of 1986, as amended; excessive cost escalation as well as development, permitting, infrastructure, operating or technical difficulties on any of the properties in which LRC holds a royalty or other interest; actual mineral content may differ from the resources and reserves contained in technical reports; rate and timing of production differences from resource estimates, other technical reports and mine plans; risks associated with the solvency of operators of projects that LRC has royalties over; risks and hazards associated with the business of development and mining on any of the properties in which LRC holds a royalty or other interest, including, but not limited to unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, sinkholes, flooding and other natural disasters, terrorism, civil unrest or an outbreak of contagious disease; and the integration of acquired assets. The forward-looking statements contained in this press release are based upon assumptions management believes to be reasonable, including, without limitation: the ongoing operation of the properties in which LRC holds a royalty or other interest by the owners or operators of such properties in a manner consistent with past practice; the accuracy of public statements and disclosures made by the owners or operators of such underlying properties; no material adverse change in the market price of the commodities (including various lithium products) that underlie the asset portfolio; the Company’s ongoing income and assets relating to determination of its PFIC status; no material changes to existing tax treatment; the expected application of tax laws and regulations by taxation authorities; no adverse development in respect of any significant property in which LRC holds a royalty or other interest; the solvency of project operators; the accuracy of publicly disclosed expectations for the development of underlying properties that are not yet in production; integration of acquired assets; and the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. However, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Investors are cautioned that forward-looking statements are not guarantees of future performance. LRC cannot assure investors that actual results will be consistent with these forward-looking statements. Accordingly, investors should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

For additional information with respect to risks, uncertainties and assumptions, please refer to LRC’s most recent Annual Information Form dated March 17, 2025 and filed with the Canadian securities regulatory authorities on www.sedarplus.com. These risks and uncertainties include, but are not limited to, those described under “Risk Factors” in the Annual Information Form, and in particular risks summarized under the “Risks Related to Mining Operations” heading.
