Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months Ended June 30, 2024 and 2023

Unaudited - Expressed in Canadian dollars

1. Nature of Operations and Going Concern

Optegra Ventures Inc. (formerly Essex Minerals Inc.) (the "Company") was incorporated on November 19, 2012 under the Business Corporations Act (British Columbia). The Company's principal business activity is the exploration of mineral properties.

On March 15, 2017, the Company completed an Initial Public Offering, and its shares were listed on the TSX Venture Exchange ("TSX-V").

On March 16, 2021, the Company's common shares began being quoted on the OTCQB market under the stock symbol "ESXMF". In addition to its primary listing on the TSX-V, the Company is also listed on the Frankfurt Stock Exchange under the trading symbol "EWX1". In April 2023, the Company did not renew its listing on the OTCQB market.

On August 25, 2023, the Company changed its name to Optegra Ventures Inc., and commenced trading on the TSX-V under the symbol "OPTG".

The head office and principal address of the Company is located at 3002-1211 Melville Street, Vancouver, BC V6E 0A7, and the registered and records office of the Company is located at 2500-700 W Georgia Street, Vancouver, BC V7Y 1B3.

These condensed consolidated interim financial statements have been prepared using accounting principles applicable to a going concern which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company emphasises that attention should be drawn to matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern, the most significant of these being the Company's ability to carry out its business objectives is dependent on the Company's ability to receive continued financial support from related parties, to obtain public equity financing, or to generate profitable operations in the future. As at December 31, 2023, the Company has no properties in commercial production, continues to incur operating losses and has no source of operating cash flow. The Company is considering a number of alternatives to secure additional capital including obtaining funding facilities or equity financings. Although management intends to secure additional financing there is no assurance management will be successful or that it will establish future profitable operations. These factors together indicate that a material uncertainty exists that may raise substantial doubt about the Company's ability to continue as a going concern. Management is investigating a number of alternatives to raise capital for the Company in what is proving challenging capital markets for junior resources issuers.

If the going concern assumption was not appropriate for these condensed consolidated interim financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the condensed consolidated interim statements of financial position classifications used, and such amounts would be material.

OPTEGRA VENTURES INC. (formerly Essex Minerals Inc.)

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months Ended June 30, 2024 and 2023

Unaudited - Expressed in Canadian dollars

2. Basis of Preparation

The condensed consolidated interim financial statements were approved by the Board of Directors of the Company on August 28, 2024.

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards 34 – Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee. They do not include all of the information required for full annual financial statements.

Basis of Presentation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for some financial instruments classified in accordance with measurement standards under IFRS. The condensed consolidated interim financial statements are presented in Canadian dollars unless otherwise specified.

Consolidation

The condensed consolidated interim financial statements include the accounts of the Company and its controlled subsidiaries. Details of the controlled subsidiaries are as follows:

	Country of incorporation	Percentage owned*	
		December 31, 2023	September 30, 2023
Optegra Capital Corp. ("Optegra")	Canada	100%	100%
KNX Resources Ltd. ("KNX")	Australia	100%	100%
IsMins Pty Ltd. ("IsMins")	Australia	100%	100%

*Percentage of voting power is in proportion to ownership.

Functional Currency Translation

The functional currency of the Company is measured using the currency of the primary economic environment in which the Company operates. These condensed consolidated interim financial statements are presented in Canadian dollars which is the functional currency of the Company and its subsidiaries.

3. Significant Accounting Judgements and Estimates

The preparation of condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, and related disclosure. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgment is used mainly in determining how a balance or transaction should be recognized in the condensed consolidated interim financial statements. Estimates and assumptions are used mainly in determining the measurement of recognized transactions and balances. Actual results may differ from these estimates.

OPTEGRA VENTURES INC. (formerly Essex Minerals Inc.)

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months Ended June 30, 2024 and 2023

Unaudited - Expressed in Canadian dollars

3. Significant Accounting Judgements and Estimates (cont'd)

Significant areas where management's judgment has been applied include:

- **Impairment of exploration and evaluation assets**
In accordance with the Company's accounting policy, the Company's exploration and evaluation assets are evaluated every reporting period to determine whether there are any indications of impairment. If any such indication exists, which is often judgmental, a formal estimate of recoverable amount is performed, and an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount. The recoverable amount of an asset or cash generating group of assets is measured at the higher of fair value less costs to sell and value in use.

The evaluation of asset carrying values for indications of impairment includes consideration of both external and internal sources of information, including such factors as market and economic conditions, metal prices, future plans for the Company's mineral properties and mineral resources and/or reserve estimates.

- **Going concern**
The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year as they fall due, and to fund planned and contractual exploration programs, involves judgment based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances.

Significant areas requiring the use of management estimates and assumptions include:

- **Valuation loan receivable**
The fair value of loan receivable is derived from estimates based on available market data at that time, which include volatility, interest-free rates, share prices and market adjusted risk rates. Changes to subjective input assumptions can materially affect the fair value estimate.
- **Valuation of options and warrants**
Estimating the fair value of the granted options and warrants required determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. The fair value is estimated using the Black Scholes Option Pricing Model. The estimate of option valuation also requires determining the most appropriate inputs to the valuation model including the volatility, expected life of options and warrants, risk free interest rate and dividend yield.
- **Current and deferred taxation**
The determination of income tax expense and the composition of deferred income tax assets and liabilities involves judgment and estimates as to the future taxable earnings, expected timing of reversals of deferred income tax assets and liabilities, and interpretations of tax laws. The Company is subject to assessments by tax authorities who may interpret the tax law differently. Changes in these interpretation, judgements and estimates may materially affect the final amounts.

4. Restricted Cash

The Company has pledged \$15,000 (September 30, 2023 - \$15,000) in cash as collateral against the credit limits of credit cards issued to the Company. Cash pledged is held in short-term GIC maturing in one year or less, which will be automatically renewed on the maturity date.

During the nine months ended June 30, 2024, the Company recorded \$262.5 (nine months ended June 30, 2023 - \$Nil) in interest income on restricted cash.

OPTEGRA VENTURES INC. (formerly Essex Minerals Inc.)

Notes to the Condensed Consolidated Interim Financial Statements

Impairment	-	(1,016,380)	(666,471)	(1,682,851)
Balance September 30, 2023	31,760	(938,118)	(643,684)	(1,550,042)
TOTAL	1,287,823	1,000	-	1,288,823

On April 5, 2022, the Company acquired all the issued and outstanding shares of KNX and its subsidiary IsMins, which holds an interest in Cumberland, Compass Creek and Mt. Turner Projects in Australia (Note 5).

As a result of the acquisition, the Company has an 88% interest in the Cumberland and Compass Creek Projects and 100% of the Mt. Turner Project through its 100% ownership of KNX.

Cumberland

Five granted exploration permits covering 26,000 hectares. The property is currently owned 88% by the Company and 12% by another Australian company, AMD Resources Ltd. ("AMD").

OPTEGRA VENTURES INC. (formerly Essex Minerals Inc.)

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months Ended June 30, 2024 and 2023

Unaudited - Expressed in Canadian dollars

Compass Creek

Three granted exploration permits covering 6,400 hectares. The property is owned 88% by the Company and 12% by AMD.

During the fiscal year 2023, the Company decided to impair Compass Creek in full and recorded an impairment of \$666,471 as no further exploration is planned for Compass Creek. In February 2024, the Company commenced relinquishment of the permits.

Mt. Turner

A granted exploration permit covering 6,000 hectares. This property is owned 100% by the Company.

During the fiscal year 2023, the Company decided to impair Mt. Turner to the carrying value of \$1,000 and recorded an impairment of \$1,016,380. The remaining exploration and evaluation balance represents the anticipated recoverable amount from Cuprium Resources Pty. Limited.

Option-out with Cuprium Resources Pty Limited ("Cuprium")

On August 4, 2023, the Company granted Cuprium, an arm's length private Australian corporation a 120-day exclusive option to acquire the Mt Turner properties in exchange for AUD\$1,000 cash and a 3% net smelter return royalty. On November 4, 2023, the option was extended until August 4, 2024. During the option period, Cuprium undertook to maintain the Mt Turner properties in good standing including making all necessary property payments.

On November 4, 2023, the Company extended the Mt. Turner option with Cuprium until August 4, 2024.

As at June 30, 2024, total amounts received by the Company from Cuprium for reimbursement of exploration expenditure was \$1,347.

Mt. Turner earn-in agreement with Meryllion Resources Corporation ("Meryllion")

On April 26, 2022, the Company reached terms with Meryllion for an option and earn-in joint venture on the Mt. Turner copper-molybdenum and Drummer Fault gold projects in north Queensland, Australia in exchange for a \$25,000 non-refundable option fee (received). In addition, the Company will grant Meryllion a 90-day option to conduct preliminary exploration on the properties. During this period, Meryllion needs to spend \$250,000 minimum on an initial drill target definition, and the Company will provide Meryllion with the geological teams and manage the recommended exploration programs for the properties.

The \$250,000 minimum spend was received and completed during the prior fiscal year 2022. Meryllion has the right to exercise its option by making a further \$75,000 payment to the Company. During the fiscal year 2022, Meryllion advised the Company that it intends to exercise its option and further advanced an additional \$96,988 for reimbursement of exploration expenditure.

During the fiscal year 2022, total amounts received by the Company from Meryllion for reimbursement of exploration expenditure was \$371,988. During the fiscal year 2023, Meryllion had not fulfilled the property expenditure required to earn its first stage interest and the option lapsed. Consequently, the property remains 100% owned by the Company.

14. Financial Risk Management

The Company's financial instruments are exposed to certain financial risks, including liquidity risk, credit risk and interest rate risk.

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they become due. Refer to Note 1 for further details related to the ability of the Company to continue as a going concern.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2024, the Company had a cash balance of \$5,739 (September 30, 2023 - \$927) to settle current liabilities of \$854,680 (September 30, 2023 - \$386,609). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. Liquidity risk is assessed as high.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The carrying amounts of financial assets best represent the maximum credit risk exposure at the reporting date. The Company's cash is held by large Canadian financial institutions. The Company's loan receivable is exposed to credit losses. Credit risk on cash is assessed as low. Credit risk on the loan receivable is assessed as high.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates. An immaterial amount of interest rate exposure exists in respect of cash balances on the statement of financial position. As a result, the Company is not exposed to interest rate risk on its cash balances.

Foreign currency risk

Foreign currency exchange risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign exchange rates. Since the Company's reporting currency is Canadian dollars and the Company and its subsidiaries have significant operations in Australia, the Company is exposed to foreign currency fluctuations on its reported amounts of assets and liabilities. This risk is not considered significant as most financial assets and liabilities are maintained in Canadian dollars. The Company's loan receivable is denominated in US dollars. If the Canadian dollar changes by 10% against the US dollar, it will result in a \$Nil (September 30, 2023 - \$Nil) change in loss and comprehensive loss.

OPTEGRA VENTURES INC. (formerly Essex Minerals Inc.)

Notes to the Condensed Consolidated Interim Financial Statements

For the Nine Months Ended June 30, 2024 and 2023

Unaudited - Expressed in Canadian dollars

Fair value

The Company's financial instruments measured at fair value consist of cash, restricted cash, loan receivable and accounts payable. The carrying values of cash, restricted cash, and accounts payable approximate their fair values due to their short-term in nature.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of fair value hierarchy are:

- Level 1 – unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 – inputs other than quoted prices that are observable for the other assets or liabilities either directly or indirectly; and
- Level 3 – inputs that are not based on observable market data.

Cash and restricted cash are classified as Level 1.

15. Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain the future development of the business.

The capital structure of the Company consists of shareholders' equity, comprising issued capital, reserves and deficit. The Company is not exposed to any externally imposed requirements and the Company's overall strategy with respect to capital risk management has not changed from the prior year.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

16. Segmented Information

The Company operates in a single reportable segment – exploration and evaluation business in two geographical area, Canada and Australia. During the six months ended June 30, 2024 and year ended September 30, 2023, assets and liabilities by geography are presented below:
