1. NATURE OF OPERATIONS

First Quantum Minerals Ltd. ("First Quantum" or "the Company") is engaged in the production of copper, nickel and gold, and related activities including exploration and development. The Company has operating mines located in Zambia, Türkiye and Mauritania. In the quarter ended March 31, 2026, the Company announced that it entered into a binding agreement to sell the Çayeli mine. The Company's Cobre Panamá mine was placed into a phase of Preservation and Safe Management ("P&SM") in November 2023. The Company's Ravensthorpe mine was placed into a care and maintenance process in May 2024. The Company is progressing the Taca Taca copper-gold-molybdenum project in Argentina and is exploring the La Granja and the Haquira copper deposits in Peru.

The Company's shares are publicly listed for trading on the Toronto Stock Exchange.

The Company is registered and domiciled in Canada, and its registered office is 1133 Melville Street, Suite 3500, The Stack, Vancouver, BC, Canada, V6E 4E5.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Accordingly, certain disclosures included in the annual financial statements prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS") have been condensed or omitted. The accounting policies applied in these condensed interim consolidated financial statements are consistent with those applied in the preparation of, and disclosed in, the consolidated annual financial statements for the year ended December 31, 2025 except for the adoption of new IFRSs effective as of January 1, 2026. The IFRSs have had no significant impact on the condensed interim consolidated financial statements.

IFRSs effective as of January 1, 2026

- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7);
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7)

These condensed interim consolidated financial statements have been prepared on a going concern basis. In making the assessment that the Company is a going concern, management has taken into account all available information about the future, which is at least, but is not limited to, twelve months from March 31, 2026. Expected credit losses on financial assets remain immaterial at March 31, 2026. Refer to note 19 for the Company's hedging program.

At March 31, 2026, the Company had \$1,350 million committed undrawn senior debt facilities and \$731 million of net unrestricted cash (inclusive of overdrafts), as well as future cash flows in order to meet all current obligations as they become due. The Company was in compliance with all existing financial covenants as at March 31, 2026, and current forecasts, including judgmental assumptions, do not indicate a breach of financial covenants.

3. TRADE RECEIVABLES

a) Trade and other receivables

c) VAT receivable by the Company's Zambian operations

	March 31, 2026
Balance at beginning of the year	884
Movement in claims, net of foreign exchange movements	(5)
Adjustment for expected phasing for non-current portion	36
Balance at March 31, 2026	915

During the three months ended March 31, 2026, the Company was granted offsets of \$163 million and cash refunds of nil with respect to VAT receivable balances. During the three months ended March 31, 2025, offsets of \$29 million were granted and cash refunds of \$40 million were received.

In 2022, the Company reached agreement in respect of the outstanding Zambian value-added tax receivable sum including an approach for repayment based on offsets against future corporate income taxes and mineral royalties. The adjustment for expected phasing for the non-current portion represents the application of an appropriate discount rate to the expected recovery of VAT. This adjustment for expected phasing, a credit of \$36 million was recognized for three months ended March 31, 2026 (three months ended March 31, 2025: credit of \$14 million). As at March 31, 2026, amounts totalling \$549 million are presented as current.

On April 4, 2023 the Company's subsidiary, KMP and ZCCM Investments Holdings Plc "ZCCM-IH" completed the agreement to convert ZCCM-IH's dividend rights to a 3.1% royalty interest in KMP. The transaction also provides for 20% of the KMP VAT refunds as at June 30, 2022 to be paid to ZCCM-IH, as and when these are received by KMP from the Zambia Revenue Authority ("ZRA"). As at March 31, 2026, a VAT payable to ZCCM-IH of \$52 million, net of adjustment for expected phasing of payments, and an expense of \$5 million for the three months ended March 31, 2026, has been recognized.

7. JOINT VENTURE

A \$445 million investment in the joint venture representing the discounted purchase consideration value and the Company's proportionate share of the profit or loss in Korea Panama Mining Corporation ("KPMC") to date is recognized.

During the second quarter of 2025, KPMC's ownership interest in Minera Panamá S.A. ("MPSA" or "Cobre Panamá") was diluted from 20.00% to 17.96% due to KPMC's non-fulfillment of funding obligations resulting in a subsequent share issuance by MPSA in favour of the Company. For the three months ended March 31, 2026, the loss attributable to KPMC was \$45 million (March 31, 2025: \$43 million loss). The loss in KPMC relates to the 17.96% equity accounted share of loss reported by MPSA, a subsidiary of the Company. The material assets and liabilities of KPMC are an investment in MPSA of \$323 million, shareholder loans receivable of \$1,187 million from the Company (note 9b) and shareholder loans payable of \$1,462 million due to the Company and its joint venture partner KOMIR.

Balance at end of period due to KPMC	1,187	1,162

In the fourth quarter of 2025, MPSA revised the terms of the loan agreement with KPMC. Effective November 1, 2025, MPSA agreed with KPMC to suspend interest accruals and payments up to twelve months. The modification was on an arm’s lengths basis and deemed to be non-substantial under IFRS 9, and resulted in an adjustment to the carrying amount of the liability of \$126 million, which has been recorded in net earnings in the year ended December 31, 2025. Finance cost has continued to be accreted, applying the effective interest method under IFRS 9. Amounts due to KPMC are specifically excluded from the calculation of net debt as defined under the Company’s banking covenant ratios.

a) Franco-Nevada Precious Metal Stream Arrangement

The Company commenced the recognition of delivery obligations under the terms of the Franco Nevada precious metal stream arrangement in June 2019 following the first sale of copper concentrate by Cobre Panamá. The Company uses refinery-backed credits as the mechanism for satisfying its delivery obligations under the arrangement. The Company's Cobre Panamá mine was placed into a phase of P&SM in November 2023. Following the approval of the Preservation and Safe Management plan in the second quarter of 2025, MPSA began exporting the copper concentrate in June 2025, and the remaining product was exported in the three months ended September 2025 (Refer to Note 20).

18. SEGMENTED INFORMATION

The Company's reportable operating segments are Cobre Panamá, Kansanshi and Trident. Each of the reportable segments report information separately to the CEO, the chief operating decision maker.

The Corporate & other segment includes the Company's remaining operations, Guelb Moghrein, Las Cruces, Çayeli, Pyhäsalmi, Ravensthorpe and the metal marketing division which purchases and sells third party material, and the exploration projects. The Corporate & other segment is responsible for the evaluation and acquisition of new mineral properties, regulatory reporting, treasury and finance and corporate administration.

The Company's operations are subject to seasonal aspects, in particular the rainy season in Zambia. The rainy season in Zambia generally starts in November and continues through April, with the heaviest rainfall normally experienced in the months of January, February and March. As a result of the rainy season, mine pit access and the ability to mine ore is lower in the first quarter of the year than other quarters and the cost of mining is higher.

Earnings (Loss) by segment

For the three months ended March 31, 2026, segmented information for the statement of earnings (loss) is presented as follows:

	Revenue	Cost of sales (excluding depreciation)	Depreciation	Other	Operating profit (loss) ^{1,5}	Income tax expense

19. FINANCIAL INSTRUMENTS

The Company classifies its financial assets as amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit and loss ("FVTPL"). Financial liabilities are measured at amortized cost or FVTPL.

The following provides the classification of financial instruments by category at March 31, 2026:

	Amortized cost ⁵	Fair value through profit or loss	Fair value through OCI	Total
Financial assets				
Trade and other receivables ¹	74	370	–	444

Liability to joint venture	1,187	–	–	1,187
Other loans owed to non-controlling interest	238	–	–	238
Debt	6,015	–	–	6,015

¹ Commodity products are sold under pricing arrangements where final prices are set at a specified future date based on market commodity prices. Changes between the prices recorded upon recognition of revenue and the final price due to fluctuations in commodity market prices give rise to an embedded derivative in the accounts receivable related to the provisionally priced sales contracts.

² For the three months ended March 31, 2026 a fair value (loss) of \$118 million has been recognized on derivatives designated as hedged instruments through accumulated other comprehensive loss. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive loss.

³ Other derivative instruments related to provisionally priced sales contracts are classified as fair value through profit or loss and recorded at fair value, with changes in fair value recognized as a component of cost of sales.

⁴ Investments held by the Company are held at fair value through other comprehensive income.

⁵ The fair value of financial assets and liabilities measured at amortized cost is comparable to the carrying value due to the short term to maturities or due to the rates of interest approximating market rates.

Fair values

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Inputs for the asset or liability that are not based on observable market data.

¹ Futures for copper, nickel, gold and zinc were purchased on the London Metal Exchange ("LME") and London Bullion Market and have direct quoted prices, therefore these contracts are classified within Level 1 of the fair value hierarchy.

² The Company's derivative instruments are valued by the Company's brokers using pricing models based on active market prices. All forward swap contracts held by the Company are OTC and therefore the valuation models require the use of assumptions concerning the amount and timing of estimated future cash flows and discount rates using inputs which can generally be verified and do not involve significant management judgment. Such instruments are classified within Level 2 of the fair value hierarchy. Derivative assets are included within other assets on the balance sheet and derivative liabilities are included within provisions and other liabilities on the balance sheet.

³ The Company's investments in marketable equity securities are classified within Level 1 and Level 3 of the fair value hierarchy. The investments classified within Level 1 of the fair value hierarchy are valued using quoted market prices in active markets. The fair value of the marketable equity securities is calculated as the quoted market price of the marketable security multiplied by the quantity of shares held by the Company. The investments in equity securities in non-public companies are classified within Level 3 of the fair value hierarchy as the valuation is based on unobservable inputs, supported by little or no market activity.

⁴ For the three months ended March 31, 2026 a fair value loss of \$118 million has been recognized on derivatives designated as hedged instruments through accumulated other comprehensive loss. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive loss.

Due to the size, complexity and nature of the Company's operations, various legal and tax matters are outstanding from time to time. The Company is routinely subject to audit by tax authorities in the countries in which it operates and has received a number of tax assessments in various locations, which are currently at various stages of progress with the relevant authorities. The outcome of these audits and assessments are uncertain however, the Company is confident of its position on the various matters under review.

Panama

Introduction

On March 8, 2023, MPSA and the Republic of Panama announced they had reached agreement on the terms and conditions of a refreshed concession contract ("Refreshed Concession Contract"). MPSA and the Government of Panama ("GOP") signed the Refreshed Concession Contract on June 26, 2023, and it was subsequently countersigned by the National Comptroller of Panama. The GOP cabinet approved the amended terms of the Refreshed Concession Contract on October 10, 2023, and MPSA and the Republic entered into the agreement the next day. On October 20, 2023, the National Assembly in Panama approved Bill 1100, being the proposal for approval of the Refreshed Concession Contract for the Cobre Panamá mine. On the same day, President Laurentino Cortizo sanctioned Bill 1100 into Law 406 and this was subsequently published in the Official Gazette.

Panama Constitutional Proceedings and Mining Moratorium.

On October 26, 2023, a claim was lodged with the Supreme Court of Justice of Panama asserting that Law 406 was unconstitutional. MPSA was not a party to that proceeding. The petitioner argued that Law 406, which gave legal effect to the Refreshed Concession Contract, was unconstitutional.

On November 28, 2023, the Supreme Court issued a ruling declaring Law 406 unconstitutional and stating that the effect of the ruling is that the Refreshed Concession Contract no longer exists. The ruling was subsequently published in the Official Gazette on December 2, 2023. The Supreme Court did not order the closure of the Cobre Panamá mine.

On December 19, 2023, the (now former) Minister for Commerce and Industry announced plans for Cobre Panamá following the ruling of the Supreme Court. The validity of Panama's Mineral Resources Code which was established more than 50 years ago was reiterated by the Minister given the absence of retroactivity of the Supreme Court ruling. As part of these plans, a temporary phase of environmental Preservation and Safe Management would be established during which intervening period independent audits, review and planning activities would be undertaken. The Company is of the view, supported by the advice of legal counsel, that it has acquired rights with respect to the operation of the Cobre Panamá project, as well as rights under international law.

On May 30, 2025, Panama issued a resolution approving the Preservation and Safe Management plan proposed in 2024 by MPSA. That plan included the sale and export of the copper concentrate and also provided for the import of fuel and restart of Cobre Panamá's power plant. MPSA began exporting the copper concentrate in June 2025, which was completed in July 2025.

In November 2025, Unit 2 of the power plant was commissioned and synchronized to the grid. Unit 1 commenced commissioning in early February 2026.

During the fourth quarter of 2025, the National Directorate of Mineral Resources of the Ministry of Commerce and Industries notified MPSA of its obligation to pay royalties corresponding to the four shipments of copper concentrate exported in June and July 2025, calculated in accordance with the special regime established under Contract Law 406 on October 20, 2023. The corresponding royalty payments totalling \$30 million were made to the GOP in the fourth quarter of 2025.

In the State of the Nation address on January 2, 2026, President José Raúl Mulino announced that the GOP would authorize the removal, processing and export of stockpiled ore at Cobre Panamá that was previously extracted before operations were suspended. Processing of the stockpiled ore will mitigate environmental and operational risks associated with its prolonged storage, such as acid rock drainage, and provide important feed material to the tailings management facility ("TMF").

Following the President's announcement the Ministry of Commerce and Industries formally requested technical and legal information and documentation from the company to support its internal review process. The company submitted all requested materials. On April 7, 2026, the Government of Panama, through Resolution No. 27 issued by the Ministry of Commerce and Industries, authorized the removal, processing, and export of stockpiled ore currently stored on site at the Cobre Panamá mine as part of the P&SM.

Arbitration Proceedings

Following engagement with the GOP's legal counsel, First Quantum has agreed to discontinue the ICC arbitration proceedings. The Company has also agreed to suspend the Canada-Panama Free Trade Agreement ("FTA") arbitration.

1. On November 29, 2023, Minera Panamá S.A. ("MPSA") initiated arbitration before the ICC's International Court of Arbitration pursuant to the ICC's Rules of Arbitration and Clause 46 of the Refreshed Concession Contract, to protect its rights under Panamanian law and the Refreshed Concession Contract that the GOP agreed to in October 2023. The arbitration clause of the contract provides for arbitration in Miami, Florida. On March 31, 2025, following engagement with the GOP's legal counsel, MPSA agreed to discontinue its ICC arbitration.
2. On November 14, 2023, First Quantum submitted a notice of intent to the GOP initiating the consultation period required under the FTA. First Quantum submitted an updated notice of intent on February 7, 2024. First Quantum is entitled to seek any and all relief appropriate in arbitration, including but not limited to damages and reparation for Panama's breaches of the Canada-Panama FTA. These breaches include, among other things, the GOP's failure to permit MPSA to lawfully operate the Cobre Panamá mine prior to the Supreme Court's November 2023 decision, and the GOP's pronouncements and actions concerning closure plans and P&SM at Cobre Panamá. On March 31, 2025, following engagement with the GOP's legal counsel, First Quantum agreed to suspend the FTA arbitration. To effectuate the suspension, on April 2, 2025 First Quantum filed a request for arbitration with the International Centre for Settlement of Investment Disputes ("ICSID"), and notified ICSID of the agreed-to suspension. Although the FTA arbitration continues to be suspended, a panel of three arbitrators was formally constituted on September 10, 2025.
